Morris is Sick of It!

Dr. Mosdell's letter in our Saturday's issue evidently caused a flutter in the Government dove-cote.

The letter is one of many indications that the political object of Sir Edward's official trips to Burgeo and LaPelle, St. Barbe's, Harbour Grace and Bonaville was a complete failure.

We are told that the address of Sir Edward at one of the St. Barbe's settlements provoked a spirited repudiation. It took the form of an unmistakable demonstration to show that the people had had enough of Sir Edward's administration. They cheered lustily for Coaker and the Fishermen's Union.

A reply to Dr. Mosdell's letter was ventured on in the Daily News this morning. Characteristically weak and feebly jocose, it savoured largely of Mr. Mott. It of course imputed motives of a sinister and interested nature to our Bonne Bay correspondent.

Politicians who live in glass houses should not throw stones. The writer was illadvised in uttering any imputation of the kind in support of the candidature of Mr. Mott. If necessary we can refresh his memory on events of the past, and make it clearer why such imputations are not only offensive but most ill-advised. He had better let sleeping dogs lie quiet.

The writer abuses the courtesy of Dr. Mosdell. The latter is a well known Liberal. He was a Liberal when he edited the Bay Roberts Outlook. He has not been sparing of criticism over his own name of the Government of Sir Edward Morris, as a reference to the issues of the Evening Telegram during the past twelve months will show, and is Secretary to the Liberal Association at Bonne Bay.

We have charged Sir Edward Morris and Mr. Mott with abusing Dr. Mosdell's hospitality. Dr. Mosdell was going his motor boat from his residence at Woody Point to Stanleyville and took a boat in tow to load "firing" from the mill there for his own use. These gentlemen asked the doctor for a passage and the doctor acceded to their request.

Judge therefore of his surprise as a well-known Liberal, when he discovered that a political significance was given to this simple act of courtesy in a political despatch to the organs of the Government here. Dr. Mosdell, however, was wise in his generation, and took time by the forelock. He did not host his guests on his boat while the Tory Leader and the Tory candidate were aboard, and this is well known in Bonne Bay, and information to that effect was conveyed to us.

The political outbreak is bad for the Picnic Party leader and his candidate in St. Barbe. Mr. Clapp, who has been member for the District of St. Barbe for the past eight years will have a complete walk over next fall. From one end of the district to the other, the people are calling for Sir Robert Bond. They are tired of Sir Edward Morris. Three and a half years of Morris rule has been more than enough for them, as it has been for the people throughout the country, and now all eyes are turned to the Liberal Chieftain. People will hail the return of Sir Robert Bond to the Premiership of Newfoundland with greater gusto than they did his advent as Premier in 1900. From

all we hear the tide of sentiment against Sir Edward Morris is sick of politics, as he knows full well his day is done. There has been too much grabbing of fees, picnics and timber limits, and the country has made up its mind that the Grabbers Must Go.

A NARROW ESCAPE.—A couple of days ago Mrs. Scurry, of Cape Broyle, narrowly escaped being killed at her residence, Cape Broyle. A road is being built to the new station there, when a blast went off and a big rock was hurled through the kitchen window of her residence, escaping the woman by a few inches. The woman received a bad fright.

Suspicious Death

Police and Doctors Investigating.
Yesterday the dead body of a child was brought to the police station from a house where it was found dead wrapped up in a shawl. It was placed in the Morgue, where a representative of the Evening Telegram saw it this morning. There are certain circumstances about the affair, which have aroused the suspicions of the police, but at the present time they are not in a position to know whether the suspicious would justify the formulation of any charge of wrong doing of which they could take notice. The dead body was taken from the house where the child was born on Saturday night. The child is illegitimate, and at noon to-day the police surgeons, Dr. Mitchell and Dr. Macpherson, examined the body. At one o'clock they left and we understand the dead child is to be buried this afternoon. Dr. Mitchell declined to give out any information on the ground that they had not yet made their official report, and at 2 o'clock the Inspector General said the authorities had not received the doctors' reports and they were not in a position as yet to decide their course of action. The police know where the child was born and its mother, but at present they are very reserved. No arrest has been made.

Horwood Pulp Mill.

Mr. W. F. Horwood, of the Horwood Lumber Co., arrived here from Campbellton a couple of days ago. The big pulp enterprise inaugurated by the Company there is now taking shape, and the mill, before Mr. Horwood left, had been thoroughly finished. It is a fine building with concrete basement floors. Some of the machinery for the mill is already on the ground and orders have been placed for the balance in the United States and Canada. The wharf has also been built. It is 350 feet long, 25 feet wide and there is 23 feet of water, capable of floating the largest ship, with a fine safe harbour. The wharf is double track, with a single track running from it to the mill and it is a fine substantial structure. Ten dwelling houses, comfortable and well built, have been erected for the officials. Stores and shops have also been erected. The concrete dam re-inforced by steel will be 1070 feet long and 850 feet of this have been completed and will back up water to a depth of 25 feet. A canal has been dug along side of the hill, which is 550 feet in length, for carrying the water to the water wheel. The canal is 18 feet wide and 10 deep with plenty of water for machinery. The dam will be finished next spring when the wheel chambers and other work will be finished. The mill will employ permanently 60 hands and will have a capacity of 10,000 tons of pulp per annum. The pulp will be turned out early next summer. Over 150 men are now at work cutting pulp wood in the forest. There was only one accident there during the summer when a man fell off a scaffold but was not seriously hurt.

Engine Off Track

Saturday evening an accident occurred near Wildcat, on the Treadway Branch, which fortunately did not end very seriously. Engine 61 was at work at construction building and approached the river near Wildcat Bay running over a trestle bridge at which a number of men were working. It was thick weather at the time and the engine went into the open part of the structure to the river below, fortunately a distance of only a few feet. Fireman Parsons jumped clear as the engine went over but driver O'Neill remained and had his foot crushed with other injuries which, however, are not dangerous. A relief train was sent out from Bonaventure and in getting the derailed engine up is progressing.

The Problem Solved.

In United States and Canada the average workman's income is \$600.00 per year. In Newfoundland, where all necessities of life are higher, the average income is only \$350.00. This can be remedied by our fishermen using a Fraser Engine, which will at least double their earning capacity. The Fraser is economical, strong, speedy and durable; any 10 year old boy can operate it. No fisherman can afford to be without one. Price and terms attractive.

Chink Beater Arrested.

At noon to-day a young man named Lukens was arrested under warrant by Constable P. O'Neill, charged with kicking and otherwise brutally assaulting a Chinaman on New Gower Street yesterday afternoon. The suspect tried to prove his innocence in that he was in the C. L. B. parade when the affair occurred, but the police did not believe his story and he was locked up to appear before the Magistrate to-morrow morning.

SHOPPING.

BY H. L. RANN.

Shopping is a feminine pastime which prevents a saleswoman from growing stout on account of lack of exercise. It has an undying charm for the woman who does not intend to buy anything, but who would be willing to look at everything up to the twelfth floor, so that she will know what to get when her black taffeta rusts out.

Shopping requires undaunted courage, a nose for bargains and the physique of a Roman gladiator. A slight, fragile woman will start out in the morning, after a hearty breakfast on a poached egg, and romp through a department store for eighteen miles without slowing up at the curves, returning home for lunch with her back hair just where she put it when she got up and as fresh as a daisy. Then she will think of something she wanted to match and go back and run it down after four hours' search, securing just enough exercise to put her in trim for the theatre if a man would try that stunt, he would cave in at the ankles, knees, waist line and collar bone before he had gotten around to the glove counter.

The demands of shopping are becoming so strenuous that a great many women prepare for bargain day sales by taking a course in Swedish gymnastics and practicing several hours a day on the horizontal bar. They are then able to buck the line, leading up to the ribbon counter without drawing anything but a few minor contusions.

Men do not know how to shop and are taken advantage of by designing saleswomen, who love a shining mark. When a man goes in to buy a dress pattern for his wife, he is just as liable to come out with ten yards of roller towel as anything else. Many a husband has carried home three or four dresses for his wife to try on, and found that the largest size was about right for a girl of 14 years.

Shopping is very popular in the large cities, where a woman can save

A Letter to Those who Shop:

MY DEAR FRIENDS,—It has been our custom since starting business to announce some days previous any special bargain event which we intended placing before the public. We make this occasion no exception, and we now wish to inform you, Mr. and Mrs. Family, that our Annual End of Season Pared Price Sale begins on Thursday, Nov. 21st, continuing up to Dec. 31st. There will be a blizzard of bargains. All departments will be gone into and prices cut deep. We have been preparing for months for this great event—since early last summer we have been getting ready. When the thermometer was 90 degrees in the shade, and when the city was spending nights in country and park, we were burning midnight oil selecting bargains for this big Dry Goods scoop. So make up your minds you will not be doing justice to yourself and your families unless you are participants in the advantages which this great merchandising event will offer. Read Thursday's papers for all information.

Yours faithfully,
J. M. DEVINE,

Special Evening Telegram.
OTTAWA, To-day.
McArthur, contractor for the Hudson Bay Railway, was in Ottawa on Saturday. McArthur is rushing the work on the Hudson Bay Line. He says the whole work will be completed by 1914, the time allowed for construction of the road. Already grading has been done for 60 miles, supplies and equipments for construction camps have been taken into the country this fall, and construction work will proceed on an extensive extensive scale next summer.

WINNIPEG, To-day.
A petition has been filed against the return of Alex. Morrison for the constituency MacDonald, making the usual charges. The petition however involves the Hon. Robert Rogers, then Minister of Interior, now Minister of Public Works. Sir Edmund Roblin, and Hon. Colin Campbell and W. H. Sharp, alleging they gave instructions to magistrates and police officials to imprison certain persons soliciting votes for R. D. Richardson.

DANGEROUSLY ILL.—Mr. William Hibbs, of Portage Cove, who is 76 years old and who had his arm amputated some months ago, is now seriously ill and fears for his recovery are entertained.

IN BAD STATE.—At 10.30 last night Officers Greene and Churchill found a man lying insensible from alcohol on Holdsworth Street. He was conveyed to the station, and might have smothered had not the officers picked him up.

UNDERGOES OPERATION.—Mr. Thomas Churchill, of Portage Cove, who is now 82 years old, will shortly enter the hospital to have his left foot amputated. He suffered an accident to it in the woods 60 years ago, a tumour formed on the foot recently and blood poisoning having set in impelled the doctors to take off the foot as the only means of saving his life.

Labouchere had a friend who spent a good deal of time and money in order to shirk the bestowal of tips. He had a conscientious objection against tipping barbers and could not shave himself. He told me once that, according to careful conclusion, he had been forced to travel considerably over a hundred miles in one year to find new barbers' shops where his unbending attitude on the tip question was unknown, and he spent rather more than \$25 on bus and cab fares in doing so. Finally, having exhausted the whole of inner London and most of the suburbs, he had to give up the struggle and grow a beard.—London Chronicle.
