**Investment News**

St. John's, Aug. 1st, 1913.

**T**HE time is most opportune for an investment. General conditions in the financial world are such that the discerning investor can now obtain securities at very attractive prices. Our opinion is that those who take advantage of the present market prices for standard issues will secure bargains which should show a good profit in the future.

**A**S a noteworthy example of the investment opportunities of the moment we wish to call your attention to the 7 per cent. Preferred Stock of the Maritime Mail Company.

**H**ERE is a high class security backed by assets which have been independently appraised at \$160 for every \$100 share of Preferred Stock—exclusive of the amount covering the bond issue. The Company's earning power is alike exceptionally strong. To make the issue even more attractive a half share of Common Stock is included as a bonus with each share of Preferred at par.

**O**UR circular containing full particulars of the issue, and of the convenient instalment plan of payment which may be had if desired, should be in the hands of every prospective investor. Send for it NOW—before forgetting.
