DR. LEHR, Dentist,
329 Water Street.

ULCERATED TEETH.
Thousands of people have suffered in the past from rheumatism and neuralgia because their diagnosis of the cause was not correct. Physicians prescribed the usual remedies but relief, if it came at all, was only temporary. They doctored the condition and not the cause. The "cause" was ulcerated teeth, but neither physician nor the patient was aware of it. The present-day physician never overlooks the teeth in locating the cause of rheumatism, neuralgia and several other illnesses. One cannot be in good health with ulcerated teeth. These teeth can sometimes be treated successfully—other times they must come out. By all means get rid of those pus-pocket formations.
