### A GREAT CANCER FIGHTER

Prof. Czerny Can Cure Dread Disease in Its First Stages.

Paris, July 6. - The activity of Dr. Doyen of Paris, in cancerous disease, is equaled, if not excelled, by that of Prof. Vincenz Czerny, of Heidelberg, Germany. Accompany the announcement that he will erect a cancer hospital in Heidelberg, a much-needed institution, comes the news of his illness. Should he succumb the world will lose one of its greatest benefac-

tors. Like Dr. Doyen, Prof. Czerny does not claim that the cancer bacillus has sary repairs to the asphalt on the combeen discovered, but neither has that pany's sections on Dundas and Richof smallpox, yet the bovine virus inoculations form a preventive. So Prof. Czerny claims that little can be done with patients in the last stages of cancer, but that the disease can be killed in the bud with recently discovered virus from animals. For that purpose is his hospital plan, and sufferers all over the world were inspired with hope by this projected benefaction. He and his tutor, Prof. Billroth served as surgeons in the Franco Prussian war of 1870 with great distinction. The professor is in his 63rd year and the author of a voluminous

nedical library. The fact that the epidemic of spot ted fever in Germany still shows no signs of abatement is apparently making the authorities anxious. Instructions have been given that in all places—barracks, hospitals, etc.—where large numbers of persons congregate, scrupulous cleanliness of persons, clothes and buildings is to be observed, and that disinfectants are to

be used liberally. The public are recommended to brush their wearing apparel daily, to keep their skin as clean as possible, and to Over 2,000 cases are reported, half of which have terminated fatally.

# WILL SERVE YEAR

Jim Barrett Will Accompany Him.

A north end young man who was ound guilty last week of stabbing a boy named Walsh with a knife, was sentenced at the police court this morning to one year in the Central Prison. The magistrate commented on the rarity of the offense of stabbing in this country, and declared it must be severely dealt with, as being far more serious than stealing. The prisoner, who claimed the stabbing was accidental, was married only a few days prior to his assault on Walsh.

James Barrett was very drunk when arrested and he tried to work a

arrested, and he tried to work a strangle hold on the officer. He was subjected to rather severe treatment at the hands of the police in return, and finally landed in the cells. He pleaded guilty to being drunk and was found guilty of an assault on the officer. The police magistrate said that if he had inflicted any injury on the bluecoat he would have been sent to Kingston. the city council that it will require at least four weeks for him to secure the deeds for the properties in West London, needed for the breakwater. Mr. Meredith adds that it may be that they will not all be secured then. Thus it would appear as though the chances for a breakwater this year have entirely vanished. The best the people of West London can hope for now is that the breakwater will be repaired in the low places so as to do away with any dangers from floods next spring.

About River Water Is Flatly Denied.

Pumping Engineer Simmle, of the waterworks, gave a most emphatic denial today to the statement made by Dr. Mothersill, medical health officer of Port Stanley, that river water was pumped into the mains last year for drinking purposes.

So many entries have come in for the relay race, both bicycle and running, at the Liberal picnic, that the sports committee have decided to add several more prizes to the list already published on the programme. This is done in order that it may be worth the drinking purposes.

Simmle replied, to a question put by The Advertiser. "Years ago an intake from the river was constructed to wash out the hydraulic well at the pumphouse, but this has not been used pumphouse, but this has not been used Rouledge's Little Joe and Dr. Wood's Continent will take part. Yesterday, Dr. Mothersill, of Port Stanley, told The Advertiser that he had information in his possession which will yet cause the provincial board of health to close up Springbank Park as a public resort for the people of the city.
