Recently rumors that the prisoner had been fatally injured by a flogging had been in circulation. According to the governor of the prison the officers discovered a plot to release the political prisoners en masse. A large sum of money had been collected, of which sum \$250 had been smuggled to Sasoneff. The authorities, therefore, reinforced the guards and stopped all communication between the convicts and the outer world. They also ordered the corporal punishment of two convicts. As a protest against these measures three of the priseners severed the arteries in their wrists and three others, including Sasoneff, took fatal doses of

Suffered Greatly From Heart Trouble.

NERVES WERE VERY WEAK.

Mrs. John Farrell, Rose Hill, P.E.I., writes:-"It is with the greatest of pleasure I write you stating the benefit I have received by using Milburn's Heart and Nerve Pills.

"About five years ago I suffered greatly from heart trouble, and my nerves were very weak. After seeing several doctors and using their medicine, I got no relief until a friend told me of your Heart and Nerve Pills. I took two boxes and they effected a complete cure. I can recom-mend them highly to all nervous and run down women.

"I have advised many others to try them and they have all been cured of the same trouble "

The proper action of the nerves, so important to the well-being of the heart, depends entirely upon the general condition of the nervous system. If there be nerve derangement of any kind, it is bound to produce heart derangement. In Milburn's Heart and Nerve Pills is

combined a treatment that will cure all forms of nervous disorders, as well as act on the heart itself, and in this is the and juicy, than ever before. secret of their success in curing so many cases of heart and nerve trouble. Milburn's Heart and Nerve Pills are

Matter Brought to Attention of Ministerial Alliance of London.

It has been brought to the attention of the Methodist Ministerial Association that there are 1,500 more Methodists, according to the city census rerolls and visiting lists of the different Methodist churches and missions in the city. This would seem to indicate that there are many professing Methodists in London, who are not attached to any local church, and who have no church home in

At the meeting of the Ministerial Association yesterday in the First Methodist Church it was decided divide the city into districts, allotting to each church so much territory to be canvassed, or otherwise covered, in order to find the Methodists who are not in touch with local congregations It is probable that many of the 1,500 unaccounted for, in the church rolls are young people from out-of-towr places, who have never given their names to any of the city churches, and have in some manner been overlooked by the church visitors and pastors.

A QUEBEC NOMINATION

Mr. C. Robert Chosen by Liberals For thing. And yet, would you neglect St. John's and Nationalists

St. John's, Que., Dec. 13.—Mr. C. Roberts, a leading farmer, was yesterday nominated as Liberal candidate for the vacancy in the Legislature, the convention being addressed by three ministers, Hon. Messrs. Davlin, Mackenzie and Decarie. The opposition will be left to the Nationalists, who meet teday to nominate a candidate. The campaign will be fought know this, but do not want to consult out on the naval issue, and, with strong English-speaking vote in riding, the Liberals look to win.

ARTICLE 1 FIXED ASSESSMENT

According to information secured from Commissioner Grant, the total assessment, including the business tax, of all the manufacturers requesting fixed assessments amounts to \$741,600. The requested fixed assessments amount to \$434,500. Apparent loss in assessments, \$307,100.

The actual deficiency would be considerably less than this, owing to the firms who are now under fixed assess ments being willing to have their asessments increased. Basing calculations on present fixed assessments in force, the actual shortage will be \$106,-580 in assessment, which is equivalent to \$1,609 36 in taxes, or about oneighteenth of a mill.

The above figures, estimated on our total assessment of \$28,062,078, would mean that it would cost the ordinary property-holder of, say, \$1,000 (assessd value), five to six cents per annum, epending on the rate of taxation. The question is: Would it pay to encourage and foster our large industries at such small cost, not to say nything about the enormous advanages to be derived? The above information can be veri ed by applying to Commissioner

ORANGE CROP GOOD SAYS LOCAL DEALER

Prices Will Be Very Reasonable For This Christmas in London.

"The orange crop never was better," said a leading wholesale fruit dealer to The Advertiser this afternoon 'Navel oranges, which are practically the only kind sold in this city, are sweeter and of a better quality this season than they have been in many ears. Oranges will sell at a reasonable price throughout the entire winter. Prices will be fairly firm, however, as this season's crop has been harvested in excellent condition." To Canadian children Christmas is always associated with oranges and sweetmeats, and the Christmas orange

will this year be more bouncing, sweet With Christmas turkeys soaring skyward, and cranberries and other holiday delicacies selling at increased prices, it is reassuring to know that there will at least be oranges at reaonable prices.
