Daniel O'Connell—"The Liberator"

LD ERIN has given the world many a genius and many a Lover of Liberty, but none greater than the eloquent O Connell. This noble Irishman unselfishly devoted every moment of his life to regain the Freedom of his Fatherland. His oratory, because of its flaming earnestness, exercised a powerful influence over the House of Commons and hastened many reforms for Ireland. Daniel O'Connell was the first to realize the irresistible strength of a union of mil lions of Irishmen, and to this end he labored night and day. Huge mass meetings were everywhere organized throughout Ireland and addressed by the masterful O'Connell. When confident of success and with victory in sight he was arrested and condemned to prison. When liberated his splendid constitution was shattered, but he continued until his dying hour to work and a week like I identicate the installant and addressed by the masterful O'Connell. his dying hour to work and pray for Irish Liberty. It is needless to say that Daniel O'Connell was opposed to any Prohibitory legislation which invaded the Natural Rights of Man. He would no more vote for such tyrannous enactments than will our millions of Irish-American citizens. They know that there is no evil in the barley brews and light wines of their fathers—EVIL ONLY IS IN THE MAN WHO MISUSES THEM. For 57 years Anheuser-Busch have honestly brewed honest beers, and they are proud of the popularity their great brand Budweiser enjoys with those of Irish blood. Our Irish citizens have helped to make our nation great among the nations of the world. Seven thousand, five hundred people are daily required to keep pace with the natural demand for Budweiser.
