ness box, declared that she had driven The report of Dr. C. S. Tamlin, the a car for three seasons. She described the accident and stated that she had veterinary of the board, on the tests of the herds, and of Dr. Slack on milk tests, occasioned considerable 'avorable turn from Wellington street to Dufferin

avenue. She saw the boy coming on the bicycle and thought he was turning east on Dufferin avenue. Mr. Miles had suddenly swerved his bicycle in the distribution of their comment.

Dr. Tamlin said that he had examined about 700 cattle just recently and ordered 23 deleted from those supplying will for the after on account of their being tubercularly effected. He gave the standing or score of the various milkmen and on a percentage of 100, it Mrs. Clarke denied that she had said showed that the milkmen supplying the anything about paying a doctor's bill or that she had told the plaintiff that she had been driving a motor car but Milk Tests Are High.

The milk tests were a strong evidence of this, and the statement was made that the standard of the milk made that the standard of here is almost perfect. B case was the number of bacteria found of any quantity, 65,000. The rest aver ages very low while the percentage of RAISE £5,000,000 LOAN butter fat was high. Dr. Tamlin was justly proud of the showing and all the members of the board com-mented most favorably on the showing. A letter was read from the Federal Veterinary Inspection Department, suggesting that the board apply to the spondent cables, has passed a bill au- department if it desires to have all SUM TO CITY CHARITIES spondent capies, has passed a bin an department it it desires to have the right to have the department in the desires to have

T. H. PURDOM, K.C., President. NATHANIEL MILLS,

The Ideal Bathtub for Baby

E DDY'S Indurated Fibreware Washtub is just the third baby's bath. Besides being light, easy to handle and unbreakable, it has a surface which cannot cause injury-no cracks, no joints, no nails or rivets. It is moulded in one piece and unlike wood, it cannot splinter or come apart. It is much superior to metal because it

cannot dent or rust. Metal tubs quickly absorb heat and are liable to scald baby's skin, even after cold water is added. In a like manner, metal if cold will strike chill to the skin and also cause the water to cool quickly. Eddy's Indurated Fibreware does not radiate heat or cold and is quite safe. For the same reason it keeps the water warm longer.
