Bernard's Express, Lytton	
Vanvick, Vancouver	
Robb, Barkerville	
Camerton, Camerton	
W. R. Burrows, Osoyoos	
L. P. Fisher, San Francisco	
F. Algar, 30 Cornhill, London	

## FURTHER FROM THE EAST.

### CALIFORNIA AND OREGON.

By the arrival of the steamer *Matanzas* yesterday morning from St. Louis, W. T., we have received the latest news of the military operations in California and Oregon. The following are the principal items:

**New York, July 15.**—The transport *Dixie* sailed for San Francisco on Monday night. She is expected to arrive in San Francisco on Wednesday morning. The following are the principal items:

**Washington, July 15.**—The *Enterprise* sailed for San Francisco on Monday night. She is expected to arrive in San Francisco on Wednesday morning. The following are the principal items:

**San Jose, July 15.**—(10:30 p. m.)—A party consisting of the sheriff and a posse of nine men on information received to-night, left for the house on the Alameda road, one mile and a half from town, where two robbers, who killed the deputy sheriff at Placerville were concealed. On approaching and surrounding the house, the robbers rushed out and commenced firing at the sheriff's party, hitting Adams in the breast. His wound is supposed to be fatal, probably a flesh wound. The ball glanced off, inflicting a flesh wound. One of the robbers named Greig, who was shot several times, died shortly after.

**Another robber named Glady was captured.** Another named Glendinning was badly wounded. Glady while coming into town acknowledged that the three were the same party who killed the sheriff at Placerville and robbed the stage and express near that place. He said the reason of it was to get money to go South and fight for the Southern Confederacy. It is thought they were intending to rob a party who were supposed to be going to Alameda to-morrow to pay off the hands, it being regular pay day.

**Captain Pools.**—The Grand Jury of Solano county have indicted Captain Pools, U. S. Marshal, and also the pilot of the steamer, for a conspiracy with intent to commit murder, the grounds for the indictment being the facts of the recent collision between the *Yosemite* and the *Warner*.

**The man injured by the collision of the *Yosemite* and *Warner* is dead.** Captain Pools has been arrested on a charge of manslaughter in connection with the above.

**STANFORD'S INTERVIEW.**—Is presented to an act of Congress, passed June 8th, 1864, constituting the appointment of Inspectors for each Collection District, U. S. District Judge Deady, Superintendent Inspector Barnett, and Customs Collector Adams on the 8th inst., appointed John Stan, Inspector of Customs and machinery, and Capt. John H. Good, Inspector of the halls of steamboats, subject to the approval of the Secretary of the Treasury.

**STORING THE LEAK.**—The San Francisco papers say "the old steamer *Sierra Nevada* is not so trim and stout a craft now as she has been." Her copper has been torn off for some distance along her sides, and exhibits ragged ends. She was partially arrested at her dock, and workmen are otherwise repairing her, in order to get her safely up to Mare Island, where she will be put in the dry dock, and have her bottom thoroughly overhauled, before returning to Portland.

**STOCKING.**—Dr. Plummer, the obliging operator at the telegraph office in Portland, has a battery arranged which not "shocks" to some of his customers, and when the battery is in use, the telegraph office is "shocked" to some of his customers, and when the battery is in use, the telegraph office is "shocked" to some of his customers.

**THE EXPLORATION EXPEDITION.**—The Exploration Committee met on Friday at noon, and received a verbal report of the doings of the expedition from Dr. Brown, who unexpectedly returned on Wednesday night from Fort San Juan, where the party are stationed at present. The journal of the expedition was also laid before the committee. So far as we have been able to gather from outside sources, we learn that Dr. Brown states he has discovered thousands of acres of open agricultural land, tracts of valuable timber lands adjacent to the sea, a seam of good coal, 2 feet thick at the surface, and that an Indian had brought a piece of gold quartz valued at \$5 to the party, and offered to conduct them to the spot where he found it. The committee sent a deputation to the Governor after the meeting, to request him to reserve all discoveries made till the exploration has been terminated, which his Excellency has agreed to do. We intend to make the proceedings of the expedition public, or to keep the whole a secret till the final return of the expedition. We feel sure, however, that the community at large wish to be informed of the genuine results, if any, of the exploration, and that whatever benefits are to be derived from the discoveries made shall be available with the least possible delay.

another wire came from the fellow to the gas pipe, then reaching the ground, and where the copper plates are united—which is done through the medium of the subject's person—a full charge passes from the battery. A few days since great sport was had by testing the battery with a "Chinese subject," John as first heard, touched the plates with the palm of his hand, and receiving a tickling sensation was anxious to know the operation of it, when his curiosity was amazingly gratified to the hearty amusement of a score of bystanders. John thinks the telegraph "No better good."

## Six Days' Later News.

DATE TO JULY 30.

## Confederates Retreat Through the Shenandoah.

**Richmond, July 15.**—The *Star* extra says: "A body of rebel raiders, numbering between 400 and 500, passed through Little Washington and Sparsville on Thursday night, on their way towards Madison and Gordonsville. They had 400 horses and 200 prisoners, who were mounted on horses and by the rebels. They passed through Gordonsville about eight and a half hours afterwards. A small force of Union cavalry made their appearance in the same place in the afternoon. The rebels gave up that they were on their way to Gordonsville and then to Richmond. They seemed to be in a hurry, having received information that Sheridan was between them and Richmond with a large cavalry force. These rebels were doubtless a part of the force recently operating in Maryland. Successions in Baltimore say that the rebels are constantly going on, and that they will receive large reinforcements and return with Lee in command."

## Federal and Confederate Victories in Mississippi.

**Washington, July 15.**—The *Star* extra says: "A body of rebel raiders, numbering between 400 and 500, passed through Little Washington and Sparsville on Thursday night, on their way towards Madison and Gordonsville. They had 400 horses and 200 prisoners, who were mounted on horses and by the rebels. They passed through Gordonsville about eight and a half hours afterwards. A small force of Union cavalry made their appearance in the same place in the afternoon. The rebels gave up that they were on their way to Gordonsville and then to Richmond. They seemed to be in a hurry, having received information that Sheridan was between them and Richmond with a large cavalry force. These rebels were doubtless a part of the force recently operating in Maryland. Successions in Baltimore say that the rebels are constantly going on, and that they will receive large reinforcements and return with Lee in command."

**Philadelphia, July 15.**—The *Enquirer* says that about 200 of Mosby's command passed near Leesburg on Tuesday night, each riding a horse and driving before them nearly a thousand head of cattle. When first heard from they were making for Ashby's Gap. Another portion is known to have been at Chester's Gap on Wednesday noon.

**Washington, July 15.**—The *Intelligencer* says that the rebels are constantly going on, and that they will receive large reinforcements and return with Lee in command."

**San Jose, July 15.**—(10:30 p. m.)—A party consisting of the sheriff and a posse of nine men on information received to-night, left for the house on the Alameda road, one mile and a half from town, where two robbers, who killed the deputy sheriff at Placerville were concealed. On approaching and surrounding the house, the robbers rushed out and commenced firing at the sheriff's party, hitting Adams in the breast. His wound is supposed to be fatal, probably a flesh wound. The ball glanced off, inflicting a flesh wound. One of the robbers named Greig, who was shot several times, died shortly after.

split of the rebels, who are making rapid progress up the Shenandoah Valley towards Staunton. A number of stragglers were captured. Our cavalry was sent to the rear of the heavy firing heard on the 17th at Great Falls, in the direction of Edwards Ferry. It was supposed to be a collision between our advance and the rebel's rear.
