CITY OF SITEA, A. T., Dec. 21, 1868. SITKA DEPOPULATED moved

Since I last wrote you many changes have taken place here! At present Sitka is comparitevely depopulated. Most all the Americans who came here to make a home and prospect the country, not only in and around Sitks, but Kodisc, Cook's Inlet, hundreds of miles distant from here, have left for Oregon, California or else-

Nearly all the Russians have also left. Some went to the Amoor River in Asia, others to California, while the greater number have left for Russia. The Winged Arrow, a fine ship sailed from here on the 8th of December for St Petersburg, taking 86 men besides the women and children; (not including the crew,) in all she took over 300 persons.

We had here many prospectors from all the different mining camps on this coast, but after getting a brief experience of a military government, they all concluded to seek a field for operations where they could purchase a pick and shovel, a miner's outfit, including a gallon of whisky, without the permission of this General or that officer, and where they could act as free American citizens. Such men have left the territory as ignorant as remained before, of the mineral resources his sentiments may yet be discovered by lower may be discovered by lower may yet by lower may yet be discovered by lower may yet be discovered by lower may yet be discovered by lower may yet by lower m

HORRIBLE DEATH OF CAPT SAMUEL H. L VOKENNEY, U. 8, A. 619 V

A most melancholy event occurred here on the morning of December 2nd, at two o'clock am. The event cast a gloom over the people of our little city that it is nett in my power to discribe. Capt. kinds of business was immediately suspended. The stores, public buildings, saloons and private dwellings were dressed in monroing, for no man in Alaska was more beloved by everybody then Capt Kenney. He was everybody's friend and no one's enemy. He was kind heart ed to a fault and hed not be a fault and hed not ed to a fault and had not an enemy in Alaska. That he was incane when he fired the fatal shot, no one can question. Capt Kenney came up with the first troops that were sent to his territory. He was a native of Onion and had he lived one month longer he would have been 25 years of age. He was buried with inhitiary honors, and his remains were some at the grave by almost every person in Sitka.

One word about the schooner Woodward.

I had a conversation with all the survivers of the schooner Woodward, and one and all give it as their bonest opinion that if God in his goodness ever created an houset man, a noble fellow a good Christian and a man with a heast as big as a lice, it was when he created Oaptain Lewis, who is Captain of the steamer Otter. This gentleman, when he heard of the wreck of the Woodward, traveled along the beach about 20 miles before he could find the shipwrecked people. Everything which was in the power of man to offer a fellow-oreature, Captain Lewis offered, and hence has get a warm place fin the heart and affections of every one of the ill-fated Woodward's passengers.

Here we woodward.

A FRIEND TO Physic. Mr Samuel Jessup who died at Heckington, Lincoln, shire, in 1817, was an opulent grazier of pill taking memory. He lived in a very eccentric way, as deceased was possessed of a good fortune, notwithstanding a most inordinate craving for physic, by which he was distinguished for the last thirty years of his life, as appeared on a trial for the assizes at Lincoln, a short time before Mr Jessup's death, wherein he was defendant. The evidence on the trial affords the following materials for the epitaph of the deceased, which will not be transcended by the memorabilia of the life of any man.

A Strange Old Story.

The editor of the Pall Mall Gazette publishes the following curious letter:

Siz.—an incident you have quoted as a singular variation on the Enoch Arden romance, reminds me of an older one to which you will perhaps allow me to call attention as an authentic example of the most moral manly, English and constitutional behaviour, under such tolerable and not-to-be-borne circumstances. #### Remarkable Movement Among the Jews. shoot, on

The Israelite, published at Cincinnati, has a series of articles upon the Sabbath, which take the ground that a change in the day is lawful and expedient . The changes of the last half century the writer, a gentleman living in New Orleans, declares to have rendera ed it impossible to observe properly the seventh day of the week as the Sabbath. It might be proper in former times, but so were other observances which the Israelites have

bath, holy, the writer declares, does not instance the particular day of the week. hemselves to blame that Ohristianity is now a faith outside of Judalam.

The view taken by this writer is catholic and liberal. He evidently does not circumscribe his sympathy inside of his own religion, but extends fellowship far beyond. He actually quotes St Paul: — After the way which they call heresy, so worship we the God of our fathers.

God of our fathers."

It is hardly probable, however, that for years the dissemination of these views will result in apparent change. As the exigencies of trade cause 'the clever people' to forget the Sabbath,' while tenaciously adlorget the Sabbath, while tenaciously adhering to the doctrine of observance of the seventh day of the week, it is more likely that a real controversy may take place best ween the future parties—one of which will favor the adoption of the Christian practice, while the other will deem every day alike.

### EXTRAORDINARY CURE OF A COUGH

The following letter has been received from WILLIAM BOARDS, Esq. an extensive agricultur-ist and land agent, residing at Edmonton, Mid-dlesex

'Nightingale Hall, Esmonton.

'Dear Sir,—I have recently suffered much from a most violent cough, proceedin.' from a tickling in my chest, which no remedy, out of many I resorted to, could aliay. My head was constantly ashing, and my whole frame entirely shaken. Having seen the good effects of your Ealsam of Aniseed in several members of my family, I purichased a small bottle, and, when going to bed at night, took a teaspoonful in two tablespoonfuls of water, just warm. The effect was immediate; it arrested the tickling in my chest, I slept well, and arose perfectly restored in the morning, with the exception of debility, arising from fettigue by incessant coughing for some days previous. My cough, entirely left me, and has never actuated. Having since heard of a lady in the neighborhood who fer a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough, was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true. I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its efficacy.

## AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD

FOR PURIFYING THE BLOOD,
And for the speedy cure of the following complaints:
Scrofule and Scrofulous Affections; such as Tumore, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blaims, and all Skin Diseases.

J. C. Ayre & Co. Gent: I feel it my duty to acknowledge wint your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla, for I knew from your reputation that anything you made must be good. I sent to Chetimati and got it, and need it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be ene of the apostles of the age, and remain ever gratchilly.

Edward S. Marrow, of Newbury, Ala., writes: "A dangerous ovarian tumor on one of the females in myifamily, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resert before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

New Orleans, 25th August, 1859.

Br. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla. I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla steadily taken cured him in five weeks. Another was astacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was sufering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excurciating pain in her icints and hones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your gent gave, me, that this Preparation from your laboratory must be a great remedy, consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. L

which destroyed my health. I tried everything,
and everything falled to relieve me; and I have
been a broken-down man for some years from no
other cause than derangement of the Liver. My
believed pastor, the Rev. Mr. Espy, advised me to
try your Sarsaparilla, because he said he knew you,
and anything you made was worth trying. By the
blessing of God it has cured me, and has so purified
my blood as to made a new man of me. I feel young
