

By Electric Telegraph.

SPECIAL TO THE DAILY BRITISH COLONIST.

Europe.

London, Sept 9.—Extreme agitation reigns in Constantinople where it is believed that Russia and Austria are negotiating with a view to partition of the European end of Turkey.

New York, Sept 9.—The World's Paris special says:—We have no accurate information as to the whereabouts of the German advance.

At an interview held yesterday at the office of the Minister of Foreign Affairs, Jules Ferry assured Lord Lyons that the Republic did not inherit the wars of the Emperor, and that the Provisional Government would gladly conclude a peace as soon as possible on any terms not absolutely dangerous or dishonorable to France.

Paris, Sept 12.—At 1:30 this morning, a heavy skirmish took place between the 8th squadron of French dragoons, which garrisoned Chateau Thierry, and the Prussian advance guard.

London, Sept 12.—An outbreak is reported in the province of Viterbo. The people surrounded the Papal Zouaves in their entrenchments and threatened to attack them.

London, Sept 10.—It is denied that Lord Lyons has gone to King William's headquarters.

Paris, Sept 10.—Certain Ministers of War, Finance and Foreign Affairs will go to Tours at once.

Some forward gunboats arrived here from Toulon; they are ironclad and draw but little water and are heavily armed.

Paris, Sept 11.—Heavy rains for the past few days have retarded the Prussian advance between Reims and Rheims; only the artillery can be moved over the heavy roads.

Berlin, Sept 10.—The following dated from the Prussian headquarters, Rheims, last night, was received to-day: More than 25,000 French prisoners were captured in front of Sedan before the capitulation on the 28th inst.

Madrid, Sept 12.—Demonstrations of sympathy with the French Republic continue in the northern provinces.

Paris, Sept 11.—The Prussians were at Toulon last night. Reports of an armistice increase in consistency.

Marseilles, Sept 12.—The Government, hearing that two cruisers had passed through the Straits of Gibraltar, ordered preparations to be made for repelling attacks.

London, Sept 11.—Orders are issued by the Government at Paris for the fortification of Havre, Marseilles, Dunkerque and other points and large war ships are to be fitted to their utmost capacity and made ready to weigh anchor at a moment's notice.

London, Sept 12.—The Tribune's special from Carlsruhe says the Strasburg besieging army is constantly reinforced and now numbers nearly 70,000 men.

The Pope has sent a protest to the Powers against the occupation of his territory, but will not resist by arms.

There has been another massacre of missionaries in China. Gladstone is alarmed at the spread of Republicanism in England.

All the bridges around Paris have been blown up. It is asserted that McMahon wished to retreat but was prevented by Pallikao's order.

Four generals, one colonel and five commanding officers are to be sent to German fortresses for refusing to sign the capitulation before Sedan.

It is reported that Bazaine not only refused to capitulate when informed that the Emperor and McMahon's army were prisoners, and that the Emperor advised the surrender of Metz, but declared in a terrible passion that he would shoot any French officer advising such surrender.

It is believed that Russia and Austria have suspended all overtures and will not stir for the Republic.

The Baltic blockade is ineffectual. Vessels enter and leave Danzig and Konigsberg freely. The French fleet has great difficulty in procuring coal.

Paris, Sept 12.—An outbreak is reported in the province of Viterbo. The people surrounded the Papal Zouaves in their entrenchments and threatened to attack them.

London, Sept 12.—An outbreak is reported in the province of Viterbo. The people surrounded the Papal Zouaves in their entrenchments and threatened to attack them.

London, Sept 12.—An outbreak is reported in the province of Viterbo. The people surrounded the Papal Zouaves in their entrenchments and threatened to attack them.

parations continue to be made at the various dockyards and at several of the chief ports. The batteries of Shorness are being armed and the ironclad squadrons will be increased by several vessels.

Mr. Odo Russell, lately the British agent in Rome, has been appointed Under Secretary at the Foreign Office. The Attorney-General having accepted the appointment of Recorder of Bristol, his seat for Plymouth becomes vacant but it is believed no opposition will be offered to his re-election.

An adjudication in bankruptcy has been made against the O'Donoghue, M. P., for Tralee. An adjudication has also been made against Mr. Grenville Murray, late editor of the Queen's Messenger.

The recruiting sergeants in London have been very successful, and there appears to be no doubt that the additional number of men required will be readily obtained.

Recruits are being raised in Ireland with equal facility. A gentleman who proved to be of unsound mind, presented himself at Windsor Castle as the legitimate owner, and has been placed under proper care.

An English lady, on her wedding tour, fell into a crevasse near Chamouni, and was killed. It is reported that an Englishman, named Elliott, has been shot in Paris as a German spy.

A Mitrailleuse has been experimented with very successful results, the weapon being considered far superior to the French art. Sir Henry Edwards has been tried and acquitted upon a charge of bribery at the Bavarian election.

The Calcutta Chamber of Commerce has appealed to the Indian Government to reduce the Income tax, on account of the commercial depression. Floods have again occurred in Malwa and Eastern Bengal.

Accounts from New Zealand to the 12th of July are favorable, and peace was regarded as established. Lord Derby has made a speech eulogistic of the war policy of the British Government and complimenting the British Army and Navy for its remarkable efficiency and readiness for any emergency.

A contemporary of the Times, writing from Frankfurt on the 6th ultimo, says: Yesterday 490 French prisoners passed through our town. They were telegraphed, and a crowd of some 20,000 persons met them at the railway station.

There were some Zouaves and Taroos among them; the rest belonged to the 14th Regiment. They were treated just like our soldiers, and got plenty of beer, sausages, and cigars.

All of them gratefully accepted these with the exception of one old captain, who remained sulky and refused everything. The Taroos then began a regular traffic, and were followed therein by the soldiers.

They offered their epaulettes for sale, and then the buttons of their coats, when they saw there were good customers for them at liberal prices. When they left they gave a loud cheer for Frankfurt.

I mention this only because, no doubt, the Journal Official will say that their epaulettes and buttons have been torn off; while, in fact, the prisoners have been treated with the greatest humanity, and not a sound of applause was heard while they were at the station.

The officers joined in friendly conversation with all persons who approached them. The Editor of the Sheffield Daily Telegraph has been found guilty of publishing a libel upon the Prince of Wales and Lord and Lady Sefton. Judgment was deferred.

The Conference of Christians of all nations, proposed to have been held at New York in September, has been postponed on account of the Franco-German war. The Queen is still at Osborne. Her Majesty has subscribed 500l. to the fund for the relief of the sick and wounded in the Franco-German war.

The Prince and Princess of Wales are in Scotland, at Duppin Castle, the seat of Lord Kinross. The Irish national feeling still runs as strong as ever in favor of France, but a counter current has appeared in the north, where the German successes have given great satisfaction. A demonstration was made in Dublin in honor of Archbishop McHale, recently returned from Rome.

The repeated successes of the German forces have had a favorable influence upon the London Money-market, as affording probability of a speedy termination of the war through the mediation of neutral Powers or otherwise.

ROBINSON'S Celebrated Magic Soap

DIRECTIONS. For doing a Large Family washing in Two Hours, of Five or Six Dozen Pieces.

1. Cut up fine a bar of the Soap, and put one-half of it into your boiler with sufficient water to cover your white clothes to be washed, and let the soap dissolve; then put your clothes in, stirring them, and let them just come to a boil, then pour out clothes and water into a tub and let them soak twenty or thirty minutes, stirring them, and wash around in the tub occasionally to loosen the dirt.

2. While your clothes are soaking put the half of your soap into your boiler, with sufficient clean water to boil, and let it be boiling. After your clothes have soaked wring them out well and put into your boiling water, and let boil from 5 to 10 minutes; then rinse, blue and hang out to dry.

By cutting up a bar of this soap into two gallons water, and let boil until thoroughly dissolved, and then leave to cool, you will have two gallons of the BEST SOAP as common Soap is generally known.

ROYAL AGRICULTURAL SOCIETY OF ENGLAND. LEICESTER MEETING, 1868. UNPRECEDENTED SUCCESS

THE FOLLOWING PRIZES WERE REWARDED TO J. & F. HOWARD, Britannia Iron Works, Bedford.
