That is the Verdict Upon the Condition of Trade Throughout the Country.

A STEADY IMPROVEMENT.

A Remarkable Feature That the Lifting Has This Year Begun at the Bottom.'

New York, March 29.—Bradstreet's tothird week in succession continues to show the tendency of prices. A week ago encouragement had been obtained from a generally unexpected advance in cotton and wneat. Following their slight reaction, the week has witnessed a firm cotton market. and further improvement in corn and oats, the effect of which is greatly emphasized this week by advances in quotations not of restricted supplies of cattle, and this is tinue upward on the comparative scarcity of hides. Firmness in cotton at the late French fleet, he says, is watching operations. advance has shown itself in higher quotations. The increased demand for petroleum on reports of reduced output have pushed prices up; and higher prices for hoge at the West have brought like quotations for pork and lard; in addition, advances are reported on butter and eggs.
At Toronto business is unchanged, being characterized by only a fair demand for sorting up goods. Manufacturers and job bers at Montreal report business quiet and do not expect activity until navigation opens. Business is quiet also at Halifax and throughout Nova Scotia, where collections are slow. Bank clearings at Winni-Hamilton, Toronto, Montreal and peg, Hamilton, Toronto, Mullerena Malaifax aggregate \$15 261,000 this week, a falling off of about 16 per cent. from last

week and practically the same total as was recorded in the week a year ago. R. G. Dun & Co.'s weekly review of trade will say : Signs of improvement are all the more satisfactory because neither accompanied nor apparently produced by a specustive craze. Dealings in stocks, cottons and wheat are not diverting all the interest all a shade stronger, but railroad earnings, bank clearings and industrial trans actions are more encouraging this week. so to speak; raw materials are leather, and then shoes; cotton rose, and afterwards some cotton goods; coke was advanced and afterwards Bessemer pig. In all these cases it is reasoned that the larger demand for consumption though yet wanting must come when it is seen that prices are going up. Higher wages for coke workers have been followed by a formal advance of 40 cents in the price of coke, and now Bessemer has risen 45 cents at Pitts-

JUBILEE HOSPITAL. To THE EDITOR :-- The condensed report of the discussion at the hospital board on the report of the committee who interviewed the ladies' auxiliary does not convey the serious nature of the resolution adopted by the casting vote of President Davies. The ladies' auxiliary during the year, by a series of entertainments, raised \$1,200, which was placed to the credit of the general fund of the hospital. This, however, appears to them to be a prosaic way of disposing of the amount raised through their efforts. They would prefer some specific object for which to work and thus be able to say that the ladies have secured to the hospital such and such a valuable aid. This is very laudable on their part, for the inauguration of a special work would create such an added interest among the ladies in the same as would enable them to procure an enlarged amount of funds. The ladies suggested that their of allusion to the African debate in the funds for a women's and children's ward, for which a charge per head of \$10 per week would be made. They, however, asked counsel of the board of directors in the matter. Without giving so serious a question the consideration it deserved, a resolution was offered concurring in the suggestion of the ladies auxiliary. The amendment offered by Mr. the Chambre syndicate in deciding on Thursday last that the bonds of the North that the matter be deferred for further consideration. This was defeated by the cast-

It was pointed out that the desire of the Kingston, March 29.—Yesterday Dr. Newham, Bishop of Moosonee, who has been here for some days, left for Montreal. It was pointed out that the desire of the ladies might be met by their undertaking to provide for the expense of running the present female and children's ward; or they could that the charge of providing all the linen guishment of the original debt, but meanly and the charge of the defendant Clark the charge of providing all the linen guishment of the original debt, but meanly and the charge of the charge of the charge of providing all the linen guishment of the original debt, but meanly and the charge of the cha required by the hospital, a method adopted to suspend all the plaintiffs' remedies, and by ladies elsewhere in their praiseworthy efforts in aid of hospital work. It was also efforts in aid of hospital work. It was also on for the purpose of putting the property in such a position that it could be got at in the building of another ward, the present plaintiffs were precluded from taking any revenue of the hospital would be decreased by the sum they have heretofore been en-abled to contribute. An additional source of expense would also be added when the end was charged, so that the plaintiffs could pursue pay the expense of maintenance. This proposed ward would cost over seven thousand

dollars to build and furnish. While it would be very gratifying to the ladies from a sentimental point of view to feel the satisfaction of having been instrumental in providing so excellent an addition to the hospital, yet they should also look at the subject from a business and practical standpoint. At the present time the hospital work is carried on with a serious annual deficit, which would be increased by the The Exchange Telegraph Co. says that at withdrawal of the amount now contributed the sabinet meeting to-day it was decided by the ladies auxiliary towards the general to support Hon. Wm. Court Gully, Q.C., M.

The addition of the new ward would fund. The addition of the new ward would add to this deficit, for while it is claimed the ward would be self-sustaining, it is well known that such calculations almost invariably result in a balance on the wrong side of the ledger.

During the present depression of business the call upon the public for contributions to charitable objects is almost at the straining point, and the inauguration of another right prove the last straw. The board of aldermen find it impossible to add to the city s annual appropriation and do the other secessary work to improve the sanitation of the hospital. It is most inconsistent that when a policy of retrenchment is the order of the day with governments, business men, manufacturers and individuals, the hospital authorities should encourage a new ex penditure—while the condition of hospital funds demands retrenchment and economy wherever possible. Where are the fund for the support of the new ward to come from if the work is to be carried out on the present lines? Unless some wealthy philanthropic citizen comes forward with a handsome donation the balance sheet this year will show a very large deficit, and this, too, in the face of the \$34,000 voted by the taxpayers a year ago. This being the case, is it wisdom to encourage the ladies' auxiliary in an effort which would deprive the cospital of a very handsome item of revenue? believe that the ladies' auxiliary, when they seriously consider the matter, will see that they will be doing a more practical good to the hospital by either continuing as be fore or taking up a branch of the presentwork and devoting their energies in its behalf The fact that they now contribute \$1,200 annually to the funds of an institution which is doing so much to relieve the sick and maimed, should prove a high source of gratification to them; but, as I have outlined be fore, their desire for a special object could met without introducing a new scheme. If it was possible to carry out the proposal of a new ward without hampering the present work of the hospital, I would be would be doing a more beneficial work by providing funds for the hospital as it is now nstituted. March 30, 1895.

WARD VS. CLARK.

By the Arrest of One Defendant the Claim Against the Other Is Satisfied.

tion Against John Clark and I. Hannigar.

An important case that has excited considerable local interest came before Mr. Justice Walkem in the Supreme court yesterday. The action is brought by Robert Ward & Co., Ltd., against John Clark, John Clark, jr., and Isaac Hennigar, and the defence raised an important point that gave

special interest to the case. The action was one to set aside as fraudulent two judgments obtained by the defendants, John Clark, jr., and Isaac Hennigar, against the defendant John Clark, upon which judgments writs of fi. fa. were issued, and the schooner Enterprise was seized and sold by the sheriff. At the sheriff's sale the schooner was purchased by the defendant John Clark, jr. On the day after the sale the plaintiffs recovered judgment against John Clark for \$8,500. and began the present action, their first move being to obtain an injunction to prevent John Clark, jr., from interfering with or lealing with the schooner. This injunction was appealed against, but the divisional court dismissed the appeal. The action then went on until the 19th of February. when the plaintiffs arrested the defendant John Clark on a capias ad satisfaciendum, upon which he is still in jail. The defendants Clark, jr., and Hennigar, then amended their defence, pleading that their co-defendant was in custody upon the ca. sa., and the plaintiffs submitting that as a matter of law this defence was no answer to their claim, Mr. Justice Drake ordered the point of law

to be set down for argumennt. This argument was heard yesterday morning before Mr. Justice Walkem; Hon. C. E. Pooley, Q.C., appearing for the plaintiffs, Mr. A. L. Belyea for the defendants, Clark jr., and Hennigar, and Mr. W. J. Taylor for the defendant John Clark.

that the Court would allow the action to go

other remedy.

Mr. Belyea argued that the original debt, which was the cause of action, was discomplished, for \$10 per week would not no other remedy at law, and that clearly if the action were allowed to proceed, the Court would be permitting the plaintiffs to have another remedy, notwithstanding that they had elected the highest remedy known

in law short of taking the man's life, viz taking away his liberty. Mr. Taylor, for the defendant John Clark, offered, so far as he was concerned, if the plaintiffs would release his client from custody, to permit them to take judgment in this action, providing, of course, this could be done without stultifying his client by the admission of fraud, for there has been no

fraud. His Lordship held that on the statement of facts which now came before him, and in view of the well known principles of law, it was unnecessary to take time to consider the matter, as it was quite clear the present action could not proceed, the plaintiffs having elected to take the body of the defendant John Clark, which was an election by them. to pursue this last remedy, and none other. He therefore dismissed the action as against the defendants John Clark, jr., and Isaac

Hennigar, with costs. Mr Taylor then suggested that if Mr. Pooley would consent he would make a motion to have the action dismissed as against John Clark on the same grounds, but this

OUR FISHERY WEALTH.

The Raleigh (N. C.) News and Observer of a recent date contains the following in-teresting extracts from the advance sheets of a report to the State department recently compiled by General W. P. Roberts, U. S. consul in this city : "It may be a matter of some interest to

the department to be informed of the enor-

mous catch of halibut reported to me, which occurred a few days ago off the coast of this province, near Queen Charlotte Islands.

The catch was made by the Victoria Fishing and Trading Company, which has only been recently organized for the purpose of opening up a fish trade with the States. Only twenty-six men Only twenty-six men were employed, and within and within the space of hours 1,200 halibut were caught, averaging seventy pounds each and aggregating 84,641 pounds after being dressed. This is said to be the largest catch

ever made on this coast in one day, and when it is considered that it was made entirely with hook and line (trolling) it is in-deed wonderful and well justifies the many comments that have been made upon it. The Victoria Fishing and Trading Company is strong and reliable, and has started upon this enterprise under the most favorable cirextensive business from this point will be established by this company with our Eastern cities and with most favorable results. Nearly the entire catch reported in this dispatch was shipped to New York and Boston. When the business gets more advanced it will be my pleasure to make a full and comprehensive report of it."
