TROUBLED VENEZUELA.
The New Government is More Unpopular Than Its Predecessor.

Kingston, Jamaica, June 13.—The British steamer "Trafalgar" arrived here today from West Indian ports, bringing papers and letters from Venezuela, dated June 4, but they did not contain anything regarding the report from Berlin of the bombardment of the Lagunas, although the steamer's captain, Pedro Castro had decided upon extreme measures to regain possession of Ciudad Bolivar and other towns captured by the rebels.

Business is at a standstill, especially at Lagayra, a town of 10,000 inhabitants. Much indignation has been created in the republic by the imprisonment of General Fancesco in Venezuela, his failure to meet President Castro's call for \$500,000, also by the President's call for the withdrawal of General Gama from a similar sum.

The new cabinet, with Gen. Garrido as war minister, has been criticized as a puppet government, and is gaining increasing sympathy for the Matos (revolutionary party).

STREET RAILWAY STRIKE.
President of Toronto Line Declines to Recognize the Union.

Toronto, June 13.—(Special.)—Mr. Wm. Mackenzie, president of the Toronto Street Railway company, has definitely refused to recognize the Amalgamated Association of Street Railway Employees of the union to which the question of that he is willing to see a deposition of men and hear their grievances and endeavor to settle them, but will refuse to allow the company to become subject to the control of a union in the United States. He knows, he says, of no case where a United States company is under the control of a union, and he believes that the company should be controlled in the States.

There seems serious ground for believing that the street railway employees will have their differences with the company settled by the arbitration board. The men are holding a preliminary meeting late tonight to determine if an election will be held. The strike will likely be held Saturday, and it is not impossible that Sunday may be the strike inaugurated. The real question at issue is not that of wages, which the company is not disputing, but the fact that the union is not recognized, and the fact that the union is not recognized, and the fact that the union is not recognized.

More Than a Thousand Gather to Celebrate and Enjoy Themselves.

From Our Own Correspondent.
Duncan, June 14.—Over a thousand Indians of the various Vancouver Island and the adjacent parts of the Mainland are gathered at the Quamichan reservation, where a large feast is being held in celebration of the good old potlach.

Platforms were erected yesterday in front of the many lodges of the village, and from which to distribute blankets in lots of a hundred each. A number of different dances were held today, many of the dancers being dressed in the most elaborate and colorful costumes. The dances were held in the evening, and the music was furnished by a band of drummers and singers.

Among the many visitors who have gathered to witness this native function are Bishop Orth and several of the Roman Catholic clergy, most of whom having through years of arduous missionary labors in the Cowichan valley made many friends and admirers among the natives on this occasion. This morning there will be some special services with the Rev. Father Orth officiating.

From Our Own Correspondent.
Ottawa, June 14.—Parliament next session will be asked to sanction the return to the War office of the sum of \$50,000,000 deposited with the government as security for carrying out the last line contract. It is alleged their failure was due to matters over which they had no control.

The Fight At Nanning

Witness Tells of Onslaught of Rebels on the Chinese City.

White Man Saved the Town by Holding a Breach Against Besiegers.

Boxer Tearing Up Railway Track in the North—Belgians Driven Out.

Refugees from Nanning, the West river treaty port besieged by the Kwangsi rebels, who arrived at Hongkong prior to the sailing of the steamer Atlantic, give details of the bombardment of the walled city by the rebels with arms of the most modern kind, and with the ancient stink pots and flaming arrows. It seems that the advance guard of the rebels came direct to the gates at Nanning, and that the Chinese, having their arms hidden, and demanded admittance from the gatekeepers. Suspicion was attached to them, and a message was sent to the city prefect who ordered the closing of the gates. The crowd in front of the gates then retired in the direction of the rebel camp three miles away. Next day another party of rebels, all armed, appeared before the gates, and demanded admittance for the procurement of provisions. The military officers, instead of reporting to the prefect, gave orders to fire on the rebels, and a murderous fire was maintained for several hours, which were lined with riflemen. But few of the rebels survived, and the survivors hurried to the rebel camp, and the long bombardment of Nanning began.

According to Chinese residents outside the city, who have reached Hongkong, the rebels had no less than 20 pieces of ordnance ranging from the 4.2 inch to other combustible matter into the city. A bombardment of this kind, which was not intended to be a serious one, but to show the rebels that the city would not stand the incessant pounding, posted about 40 men with rifles on the walls, and reports that the germination of seed has been perfect, and that wheat over the seed, which was matted in and furrows had difficulty in drawing seeds of the fields, the prospects are surprising.

The farmers have done their work as well as they could, and the conditions and from past experience it is only natural to expect a good harvest. The crops are in the best of health, and are expected to be ready for the market as early as the 1st of April, but was not finished until May 25. Oats and barley and other crops were sown in the middle of March, and the wheat was sown as late as June 10. Seedling was greatly retarded in all parts of the province, and the rolling stock of the company was not finished until May 25. Crops Report Of Manitoba

Bulletin Issued by Provincial Government Shows Very Favorable Outlook.

Rains Have Been Abundant—Live Stock Is in Prime Condition.

Winnipeg, Man., June 13.—Crop bulletin No. 90 is issued tonight by the Manitoba Department of Agriculture, and is compiled from returns received by the department up to June 11. From all parts of the province reports indicate that the germination of seed has been perfect, and that wheat over the seed, which was matted in and furrows had difficulty in drawing seeds of the fields, the prospects are surprising.

A Fuss On The Field

Nanaimo Lacrosse Team Show Displeasure at Vancouver Umpire's Decision.

Coal City Is Beaten at Baseball By Twenty Runs to One.

Mr. Buntzen Reports Bonds Floated to Build Coquitlam Power Plant.

From Our Own Correspondent.
Vancouver, June 14.—Nanaimo was unfortunate in lacrosse and baseball today. In lacrosse the Vancouver seniors won from the Nanaimo lacrosse players by a score of 13 to 3. Frank Miller, who was referee, did not seem to be satisfactory to the Black Diamond City boys. In the second quarter two Nanaimo players left the field and returned to the Nanaimo camp after some coaxing. A decision by the referee in the fourth quarter, where a Nanaimo player and Vancouver man clashed, and only the Nanaimo man was sent off the field, caused more trouble. The Nanaimo players called to the referee to the fence to return and refuse to go. On his continuing his journey to the fence, however, all the Nanaimo players walked off with him, and it took the persuasion of a score of onlookers to induce them to return to the field. The crowd was small owing to counter-attractions.

The Nanaimo baseball team would have been shut out by the Vancouver team today but for an overthrow by the new pitcher, Lew, which hit in one man. The score was 20 to 1. In the first inning, the Vancouver team was run by made up of him and his first two innings. The visitors took him out in the second inning, but he was replaced by Vancouver. Zeigler, Nanaimo's new pitcher, was then put back in the box and pitched a good game in the final, only one run being made off him. The Nanaimo team was in a hard luck and the score does not indicate their wretched condition. The Nanaimo team seemed to be in a hard luck and the score does not indicate their wretched condition.

KING EDWARD'S REPLY.
What He Said on Receiving London Address.

London, June 13.—King Edward held a special court at Buckingham Palace today for the reception of addresses from the Lord Mayor, Sir Joseph G. Dingle, and the corporation, and from the London County Council, congratulating His Majesty on the restoration of peace. The King took the occasion to express his sentiments on the subject more fully than hitherto, and referring to the occasion which he made of the sterling qualities of the Boers will doubtless materially hasten the restoration of peace in Africa. His Majesty, surrounded by the household, received the city dignitaries in the throne room and replied to the Lord Mayor's address, said:

"I thank you in my own name and in the Queen's for your loyal and fraternal address, and the congratulatory you tender us at the close of the war in South Africa. I heartily join in your expressions of thankfulness to the Almighty God for the termination of the struggle which has done so much to unite our people at home and beyond the sea so many sacrifices, borne with admirable fortitude, has secured a treaty which will give increased unity and strength to my Empire.

"The moral and spontaneous exertions in all parts of my dominions, as well as in your ancient and loyal city, have done much to bring about this happy result.

"You give fitting expression to the admiration universally felt for the valor and endurance of the officers and men who have been engaged in fighting their country's battles and have been opposed by a brave and determined people, and had to encounter unexampled difficulties. The moral and spontaneous exertions in all parts of my dominions, as well as in your ancient and loyal city, have done much to bring about this happy result.

U. S. S. Manila Has Accident to Her Machinery.

San Francisco, June 13.—The gunboat Manila arrived from Manila last night in distress. She was picked up off Point Bonita and towed into port by the United States tug Slocum. The Manila had on board a crew of 37 men, 10 officers and 84 marines. On June 1 the Manila's high-pressure piston broke. On June 4 a storm came up and blew the sails to pieces. The vessel lay in the trough of the sea beyond control from 6 a. m. until 2 p. m. The engine was finally started and headway was made by the tug. The crew was ordered to abandon order, and the vessel turned with a heavy sea aft. When the gear was repaired the Manila was ordered to a position of comparative safety, she was 1,100 miles from this port, outside the track of the coast guard cutter, and was ordered to return to the coast.

BAKING POWDER

Good health depends mostly upon the food we eat.

We can't be healthy if we take alum or other poison daily in our food.

Dr. Price's Baking Powder is absolutely free from alum. It is made from pure cream of tartar and adds to the healthfulness of the food.

NOTE.—Alum baking powders induce dyspepsia, liver complaint and kidney trouble. Alum may not kill, but undermines the health, and ill health makes life miserable.
