The committee deferred action until the next meeting, when a deputation of those inter-ested in getting the pound placed somewhere else will be beard. subject discussed. The following letter touching this enterprise was read:
I have yours of Saturday stating that the Markets and License Committee desire my onince as to whether the council by bylaw can establish alternate market days at the St. Lawrence Market and St. Andrew's Markett and also whether if such bylaw were passed, sellers of produce, etc., could be compelled to go to each market alternately to sell-their produce.

In reply I beg to say that I think such a bylaw eaul interfere with the existing lease of the market fees and would render us liable to compensate the lessee, nor could sellers be compelled to go alternately to the different markets; for the bylaw and statute provide only that these market. fees shall be payable by persons "coluntarily making use of the public markets for the purpose of selling the articles manded in the schedule." C. R. W. Brodal.

The Chairman: "There is nothing to be done. I am atraid you will find it difficult to make St. Andrew's market a success."

The committee adjourned, but not until the chairman had given the committee his opinion of the Humane Society in connection with the dog pound. He said that no attention should have been paid to them and that the City Commissioner should have kept the matter in his own hands.

propositions, either or which would be acceptable: 1, That the Government authorize the City Council to reduce the number of licenses, or 2, That the council be authorized to impose a license equal to that imposed by the Government. He understood there were over 700 hotel and restaurant licenses and this was far too much. The corporation was not seeking after revenue, but to decrease the number of drinking places.

Mr. White spoke in the same strain and pointed out that there were about 1000 places licensed to sell liquor in Montreal when there were only 2500 in all the Province of Ontario. Ald MeBride, who spoke to the same effect, and Mr. Perrault remarked that Montreal with Quebec, was the only municipality in the whole province which did not control the liquor traffic within its own limits. He asked that the number of saloons be fixed according to the population.

that the number of saloons be fixed according to the population.

Mr. Shehyn admitted that the subject was a serious one and stated that the Government was fully disposed to help the temperance cause, but it must also protect its revenue. Though he would have to submit the matter to his colleagues it was his own epinion that the number should be reduced but the revenue kept at its present figure by increasing the cost of liceness. Premier Mercier approved his colleague's suggestion and declared that the Government would act in the matter as soon as the city had laid down in writing what it wanted. He would favor the number of liceness being reduced from 700 to 500 and the cost of liceness increased so that there would be not loss in revenue. The Government will deal with the question this session. The deputation then withdrew, the mayor declaring himself satisfied that at last something would stooned. DRUNKARDS MAY MAKE WILLS,

Fever and Ague and Bilious Derangements are positively cured by the use of Parmelee's Pilis. They not only cleanse the stomach and bowels from all bilious matter, but they open the excretory vessels, causing them to pour copious effuctions from the blood into the bowels, after which the corrupted mass is thrown out by the natural passage of the body. They are used as a general family medicine with the best results.

PRIEST AND PLOCK.

QUEBEC, Sept. 25.—A curious state of affairs exists in the parish of Lotbiniere. Father Bernier, who has been cure of the parish for about five years, has indebted the parish for about five years, has indebted the parish to the extent of \$14,000 since he has been in charge. Lately Father Bernier wanted \$25 to repair his stable. The church wardens refused, but consented to pay for all necessary repairs. This did not suit the cure, who came to Quebec and complained to the cardinal. The latter wrote a letter which was read to the parishioners of Lotbiniere the last two Sundays at mass, threatening the recalcitarints with refusal of the rifes of the church even on the death-bed. This led to considerable absenteeism. Sunday last at high mass the cure said the cardinal had reconsidered his decision and that he had invited the faithful to return to their religious duties.

Trouble also exists between the inhabitants and priest at Pointe Aux Trembles, county of Portneuf, and to such an extent that the cure had to be replaced by Cure Boucher, formerly of St. Emilia de Lotbiniere.
