PLAN TO RESCUE FAMOUS SHIP GLORY

An appeal to the pride of Boston to save from the junk heap the famous clipper ship Glory of the Seas, built at Donald McKay's shipyards in East Boston in 1869, has been received from Cornelius J. Vanderbilt in Tacoma, Washington, and the Maritime Association has started a movement to have the once proud queen of the seas brought to the port of her birth to be exhibited as a reminder of the days when she and others of her type carried the United States flag to every corner of the globe.

Governor Cox and Mayor Curley have asked to lend their aid in the fight to save the ship from an inglorious end. The discovery was made recently that barnacles had eaten into her hull so that she was unfit for further service, and her owners then decided that she should be broken up.

How to Grow New Skin!

Nothing is more wonderful than the human skin. It breathes through tiny mouths called pores. If it is kept whole and strong it improves the entire bodily health.

Those who know most about the complete structure of the skin appreciate the care that must be taken in deciding what is the safest, purest and best dressing to apply in time of accident or disease.

Much scientific thought and experiment was expended in the search for an ideal natural healing substance, but it has actually been found at last, in Nature's own storehouse of medicinal herbs.

Never in the world's history has there been another preparation like zam-buk. Amongst other virtues, it possesses that rare quality of actually growing new skin in Nature's own way.

A MIRACLE BEFORE YOUR EYES. Healing the injured and diseased tissues by this precious herbal balm is a miracle that may be performed before your own eyes. Children remember zam-buk best for its great power in soothing and healing their hurts, while in the treatment of eczema, ringworm, chronic sores, ulcers and poisoned sores, zam-buk powerful antiseptic and tissue-building properties ensure success; again, many thousands have zam-buk alone to thank for their complete release from torturing piles.

Suffering fundamentally and in action from all ordinary ointments, zam-buk is free from animal fats and mineral compounds. It is highly refined and contains no ingredient which the skin cannot readily absorb. A fifty-cent box of zam-buk may save you dollars in doctors' bills. It is a unique preparation with a wonderfully wide range of usefulness.

MARINE

The Digby schooner Clarke L. Corkum, Capt. Ansel Snow, which left Shelburne a week ago for the banks, arrived at Yarmouth Friday with a fare of 59,000 pounds of halibut and 10,000 pounds of shuck.

The Annapolis Royal schooner A. W. Longmire, Capt. Arthur Longmire, arrived at Shelburne Friday with her rudder gone, having lost it the day before when on LaHave Bank. The vessel hailed for 7,000 pounds of halibut.

The schooner W. G. Robertson, Capt. Simon Theriault, arrived at Yarmouth Friday from a two weeks' trip with a fare of 35,000 pounds of halibut and 15,000 of shuck. Capt. Theriault reports a good trip and struck excellent fishing up to the time he left Western Bank on Wednesday.

The Public schooner Catherine M., Capt. Telephone d'Entremont, arrived in Yarmouth with a fare of 10,000 pounds fresh halibut and 15,000 of shuck. The vessel was out from that port four weeks and during that time she landed a fare of 9,000 pounds of halibut at Shelburne and 2,000 at Liverpool. On the 25th, Mr. J. M. Woodman, St. John, general superintendent of the Canadian Pacific Railway, New Brunswick district, announces that the Bay of Fundy service has been entered under his jurisdiction and that he assumed control April 1st. The bay service was formerly under Superintendent A. S. Hawker, who died recently. The bay service of the C.P.R. is that performed by the steamer Empress between St. John and Digby.

Capt. d'Entremont spoke the Yarmouth schooner Lucille M., Captain Andrew D'Eon, hailing for 1,000 of halibut. On the 27th, he spoke the schooner Eddie James, Capt. Pyna, which only the previous Thursday had left Shelburne, where the vessel received a new mainmast and other repairs. The schooner had, however, struck good fishing and when spoken she hailed for 12,000 of halibut. The Catherine M., for the four weeks stocked \$3,248.47 and the crew shared \$63 per man.

This season will see the largest fresh fish fleet sailing from Yarmouth than of any season since the industry was established a few years ago. At present it totals fifteen sail, as follows: Annie L. Spindler, Eddie James, Wilfred L. Snow, A. W. Longmire, Clarke L. Corkum, Catherine M., Patrick and Michael, Grace and Ruby, Loren B. Snow, Cupola, Lewis H. Smith, Roseway, W. G. Robertson, Thomas and Robert, Lucille M., with every possibility of some additions as the season advances.

What is probably the busiest centre along the St. Mary's Bay shore and possibly in western Nova Scotia, so far as ship repair work is concerned, is the combined shipyard and marine railway at Meteghan. During the winter months work was carried on there with practically not an idle day, with the exception of when the ice was on the coast, which for a few weeks tied up the slip. At that time the tern schooner E. R. Theriault was on the slip, but since that vessel was put afloat two others hauled out for repairs and now the Yarmouth two-master Quotay is on for extensive repairs, which call for a very complete retopping. In addition, a large yacht belonging to United States parties is hauled out and housed over, which is practically being made into a new vessel. To handle this work the plant constantly employs at least fifty first-class shipwrights, which makes the industry a great boon to that section.

Mrs. Banks who is quite blind, and can only distinguish slightly between light and darkness, has kept during the past winter at least four dozen pairs of socks and mittens.

Mr. W. K. Crisp (bachelor house-keeper) recently treated some of his neighbors to pears came by himself seven years ago last September. The pears were only moderately sweetened but had kept delicious. One of the ladies, Mrs. Enos Munroe, returned the compliment by presenting Mr. Crisp with a fair sized parcel which she said contained something for his breakfast. On searching carefully amongst an abundance of wrapping paper, Mr. Crisp found a hen's egg, so small that he tried it in a teaspoon. SAYS GHOST WITH AN AXE CHASED WIDOW

For the last year or more, miners and other people of Forestburg, near Edmonton, claim to have seen the ghost of a mine owner named Turner. Sometimes this apparition visited the miners while they were at work and frequently Mrs. Eddall, the former wife of the late Mr. Turner, has encountered the "ghost" in and about the house.

On one occasion the entire gang of miners was driven away by the appearance of the ghost, it was said. But one man who lingered longest threw a pick at it, which made the ghost vanish with alacrity.

On another occasion the ghost is said to have chased Mr. Eddall round the house with an axe. The visitations of the spirit became so annoying that the Eddall family had to move to another dwelling and scarcely anybody will venture into the mine, it is said.

Spring is coming, but very tardily. Striking on the job, we suppose.
