

Hinds' Farriery and Stud-Book—New Edition.

FARRIERY, TAUGHT ON A NEW AND EASY PLAN, BEING A TREATISE ON THE DISEASES AND ACCIDENTS OF THE HORSE;

WITH

Instructions to the Shoeing Smith, Farrier, and Groom, preceded by a Popular Description of the Animal Functions in Health, and how these are to be restored when disordered.

BY JOHN HINDS, Veterinary Surgeon.

With considerable Additions and Improvements, particularly adapted to this Country.

BY THOMAS M. SMITH,

Veterinary Surgeon, and Member of the London Veterinary Medical Society.

WITH A SUPPLEMENT:

COMPRISING

An Essay on Domestic Animals, especially the Horse; with Remarks on Treatment and Breeding; together with Trotting and Racing Tables, showing the best time on

Record, at one, two, three, and four mile heats; pedigrees of Winning Horses, since 1839; and of the most celebrated Stallions and

Mares: with Useful Calving and Lambing Tables, &c. &c.

BY J. S. SKINNER;

Editor now of the Farmer's Library, New York; Founder of the American Farmer, in 1819; and of the Turf Register and Sporting Magazine, in 1829: being the first Agricultural and the first Sporting Periodicals established in the United States.

THE PUBLISHERS HAVE RECEIVED NUMEROUS FLATTERING NOTICES of the great practical value of these works. The distinguished editor of the American Farmer, speaking of them, observes—"We cannot too highly recommend these books, and therefore advise every owner of a horse to obtain them."

"There are receipts in those books that show how FOUNDER may be cured, and the traveler pursue his journey the next day, by giving a *tablespoonful of alum*. This was got from Dr. P. Thornton, of Montpelier, Rappahannock County, Virginia, as founded on his own observation in several cases."

"The constant demand for MASON AND HINDS' FARRIERY, has induced the publishers, Messrs. GRIGG, ELLIOT & Co., to put forth new editions with a 'SUPPLEMENT' of 100 pages, by J. S. SKINNER, Esq. We should have sought to render an acceptable service to our agricultural readers, by giving a chapter from the Supplement, 'On the relations between Man and the Domestic Animals—especially the Horse—and the obligations they impose;' or the one on 'The Form of Animals,'—but that either one of them would overrun the space here allotted to such subjects."

"LIST OF MEDICINES.

And other articles which ought to be at hand about every training and livery stable, and every Farmer's and Breeder's establishment, will be found in these valuable works."

RUSCHENBERGER'S NATURAL HISTORY.

IN TWO BEAUTIFUL VOLUMES WORTHY OF THE HIGHEST COMMENDATION.

They embrace elements of Anatomy and Physiology, Mammalogy, Ornithology, Herpetology, Conchology, Entomology, Botany and Geology, each of which Divisions of Science is treated of in the most masterly yet simple manner, on the basis of a set of works ordered and approved by the Royal Council of Public Instruction in France.

The author has done his work well, and is highly complimented by the most distinguished scholars in the country. The work is a text-book in the Philadelphia High School. It is splendidly illustrated, and parents could not do better than to present their children with this book in preference to those of a more trivial character, combining as it does amusement with important instruction. Any one of the works may be had separately.
