

Cairnes's Character and Logical Method of Political Economy.

The Character and Logical Method of Political Economy. By J. E. CAIRNES, LL.D., Emeritus Professor of Political Economy in University College, London, Author of "Some Leading Principles of Political Economy Newly Expounded." 12mo, Cloth, \$1 50.

Any thing written by Professor Cairnes on political economy is sure to command the attention of all who are interested in the development of a science which with every advance has discovered some erroneous policy or false doctrine, not only thwarting human progress, but also at variance with the particular interests of those who are supposed to benefit by it, and who defend and support it.—*Spectator*, London.

Bishop Haven's Mexico.

Our Next-Door Neighbor. Recent Sketches of Mexico. By the Rev. GILBERT HAVEN, D.D., Bishop in the M.E. Church. With Maps and Illustrations. Crown 8vo, Cloth, \$3 50.

That the author's judgment respecting this strange land of marvel and mystery is correct the graphic pages of this volume amply testify. His descriptions of the country and people, of the remarkable places he visited, of the singular persons he met, and of the scenes and adventures he encountered are all given in charming style, and present a vivid picture of the strange land. The volume is strikingly and profusely illustrated, and since Prescott's "Conquest," no work on Mexico so deeply interesting and attractive has appeared.—*The Lutheran Observer*, Philadelphia.

Bishop Haven is an especially good traveler. He sees with a ready eye to more salient features, writes in a familiar and an agreeable style, and affords an excellent picture of the present condition of Mexico as regards her people, as well as of the natural features of the regions visited.—*Saturday Evening Gazette*, Boston.

It is written in a vivacious and entertaining style. The author is a keen observer, not only of the beautiful and picturesque in nature, but of the eccentric and interesting in manners and life. That he kept his eyes open during his comparatively brief stay in our neighbor Republic is evident from the fact that he has been able to write a book as agreeable and full

of information as the present; in which the social and domestic habits, the religious condition and customs, and the physical surroundings of so heterogeneous a people who dwell to the south of us, are described with a ready pen.—*Boston Journal*.

Although our author gives especial attention to the moral, religious, and social condition of the people, he allows nothing to escape his notice. He has as keen an appreciation of the ludicrous as of the grand and beautiful, and he is as humorous as he is evangelical. We have seldom read a more entertaining book of travels, and most cordially commend it to whoever wishes to know all about "Our Next-Door Neighbor."—*Albany Evening Journal*.

This account of a journey to and a sojourn of some length in Mexico will find plenty of interested and amused readers. It is written in a free and easy conversational style, is full of incident and adventure, reads like a romance, but gives withal a true and vivid picture of the country visited, of the people, their customs, religious observances, costume, etc. * * * He seems to have been a traveler of travelers, to have seen and noted every thing, and he gives his readers the full benefit of his observations and experiences.—*The Daily Spy*, Worcester.

This is a story of much beauty and power, which will more than sustain the high reputation the writer has won.—*Graphic*, London.

It is the work of a true artist, and is one of those excellent delineations of French society from English pens. * * * Here we have keen observation and delicate handling, and just enough of plot to give interest to the vivid descriptions of Anvergnat landscape and society, with a glimpse of the recent war.—*Academy*, London.

A story of exceptional interest.—*N. Y. Commercial Advertiser*.

There is a wonderful variety of character in it, and the various personages are drawn with great skill, and each maintains his or her individuality with entire consistency; and some of them are men or women of decided worth. The story is one of recent English life.—*Boston Traveller*.

Payn's Walter's Word.

Walter's Word. A Novel. By JAMES PAYN, Author of "A Woman's Vengeance," "At Her Mercy," "Ceecil's Tryst," &c., &c. 8vo, Paper, 75 cents.

It is always a pleasure to read Mr. Payn's novels. He never takes to stilt, and is never uninteresting. He is scholarly and graphic, is skillful in the construction of his plots, dramatic in the arrangement of his incidents, and never remature in his denouements.—*Albany Evening Journal*.

It is powerful in interest and remarkably spirited in recital. A large portion of the story passes among the brigands that infest the Italian mountains,

and this part of the work is full of picturesque description and dramatic incident. Mr. Payn has given some exceedingly vigorous and well-considered drawings of character in this book, especially of the brigands; and the scenes relating to the capture of their victims, the attempts to obtain ransom for them, and the skirmishes with the soldiers, are among the most effective he has ever described.—*Saturday Evening Gazette*, Boston.
