W. H. B.—We have have not been able to find whether Trickett was in Philadelphia at any time during the Centennial; I understand he was not there during the Regatta. Trickett claims to be champion of the world on account of defeating the English champion, who has a right to the title by the defeat of Hamill, the American oar-man, some years ago in England. Never having seen the announcement of the single scull race at the Centennial, we are unable to say whether it was advertised for the championship of the world.
