SPECIALTIES in BREAD

Thate subjected to a careful chemical and microacopical-examination the two varieties of bread
known as "Cobourg Fancy Loaf" and "Digestive
literal," made by Mr. Thomas Adams, of this city,
and find them to be entirely free from all adulteration and deleterious admixture.

The "Cobourg Loaf" has evidently been made of
the fibest flour, and the "Digestive Bread" from
ground wheat, from which the bran and glutenbearing portions have not been separated. In both
cases the cookery of the farinaceous constituents
has been thoroughly performed—a point of first
importance in the process of digestion—and in other—
respects, as shown by the elasticity, lightness,
electroses and uniformity of the loaves, the manipulations of the operator have been those of a skilful
and intelligent workman.
