

PARLIAMENTARY REVIEW.

April and Easter and the close of the session of the Provincial Parliament are all clearly associated, but this year the association is disrupted; April alone remaining true to itself, while Easter backs away into March, and the Legislators begin, instead of end their labors in this month. This may not be amiss, as the long and inviting spring days, and the desire of the members to return to their homes in time to participate in the spring business, may check frothiness, and tend to make the debates short, sharp and decisive. Hon. M. J. Power has again been elected Speaker of the House of Assembly. At the opening of the Legislature, His Honor Lieut-Governor Daly was pleased to make the customary speech; in which after referring to the pleasure that it gave him to meet the members of both branches of the Legislature, His Honor spoke briefly of the visit of Lord Stanley to this Province, referred to the mineral wealth of Nova Scotia, deplored the strike at Springhill, regretted the terrible accident at same place, hinted that more money would be expended upon roads and bridges, gave the mining schools certificates of competency, suggested the enlargement of the Victoria General Hospital, stated that the Dominion Government would be asked to refund to the Province, all monies expended upon certain railways by the Province, foreshadowed a change in the franchise act, indicated a proposed saving on interest account, and finally intimated that some changes would be made in the towns' incorporation act.

The Address in reply to the Lieut-Governor's Speech is always more or less a formal affair, and is in fact the speech itself with variations. The adoption of the Address was moved by Mr. McKinnon of Inverness, and seconded by Mr. Comeau, the member for Digby, who is credited with being the most youthful member in the House. Mr. Cahan, member for Shelburne, who has been elected leader of the Opposition, took up the speech, clause by clause, word by word, and letter by letter; and judging by his remarks, and his keen criticism, Premier Fielding will find in him a foeman worthy of his steel. The Hon. Provincial Secretary in closing the debate, complimented the mover and seconder of the address, and then good-humoredly disposed of Mr. Cahan's criticism, by declaring that Mr. Cahan's remarks were out of order and his statements irrelevant to the matter in hand.

The enforcement of the Newfoundland bait laws against Canadian vessels, while permitting American vessels to purchase bait, is most unfair, and shows a spirit very antagonistic to Canada. The prospect of Newfoundland ever becoming a part of the Dominion has dwindled away to a vanishing point.

Minister Tupper says that in preventing Canadian fishing vessels obtaining bait in their waters the Newfoundlanders are guilty of a gross breach of faith towards the Imperial government, as the latter only allows the Newfoundland act to go into effect on condition that it should not be enforced against Canadians.

Sir Charles Tupper made an attack upon the G. T. Railway Company for its action in the late election campaign. A telegram recently received states that the directors of the G. T. R. company have endorsed the action of Sir Henry Tyler and manager Sergeant and condemned Sir Charles' attack upon the company.

At a meeting of the ratepayers of Dartmouth on Thursday evening of last week, the proposal to grant \$2,500 to complete the new Greenvale School was postponed for four months. The money will, therefore, not be forthcoming. Great discontent is expressed with the school house, which is faulty in many particulars.

One of the pupils of the Collegiate School, at Windsor, was accidentally shot on Saturday last. He was out fishing, and feeling a bite he dropped his gun, which he had in his hand. It discharged its contents into his leg, and he shortly afterwards bled to death. The youth's name was Radden, and he was about 18 years of age.

The French steamer *Cachar* arrived in port on Thursday of last week in a disabled condition, having broken her rudder. She was steered in by the steamer *Clintonia*, Capt. Bullman, from Savannah for Bremen, with a cargo of cotton. The *Cachar* is at Pickford and Black's wharf where she will probably receive a new rudder without entering the dry dock. A cofferdam will be used.

The proprietors of the great Tantramar marsh at Sackville, contemplate to tide about 1,000 acres this summer. It is proposed to dig three canals from different starting points. The probable cost is estimated all the way from \$10,000 to \$30,000, but if it cost the highest estimate, \$30 per acre, it would then be a profitable undertaking as considerable of the marsh is now producing a very inferior crop of hay.

The trade and labor associations of Halifax have appointed a committee of seven, six from the trade and one from the labor association to select and report upon a site for a building to be used for association purposes. They have formerly been meeting at 200 Barrington street, but as they have funds on hand sufficient to erect a building with hall and committee room for themselves they have decided to do so. Should a suitable site be chosen there will probably be a couple of shops on the ground floor. The committee appointed has full power to make contracts and transact all the business in connection with the building and they intend to push the matter at once.
