Around the World in 8 Hours, 33 Minutes.

CLEVELAND BALL AND ROLLER BEARINGS have been actually run at this wonderful speed, as follows: The machine for grinding Cleveland Bearings are all equipped with the new Ball and Roller Bearing. They revolve at the rate of 35,000 revolutions per minute, which means 2,922 miles per hour and 25,000 miles in 8 hours and 33 minutes. These bearings have been run for months at this great speed, and are as perfect as the first day they were put into use. The highest rate of speed ever attained with ordinary bearings has been 13,000 revolutions per minute, but at this speed the bearings were soon destroyed.
