

## SPECIAL ! Clinics in Your Office

Section of MOVIEGRAPH FILM.

Here's a neglected part of our profession that can now add 50 per cent to the income of the average practitioner—no matter where located—without expensive equipment !

An Iowa practitioner worked out a System that is revolutionizing Refracting—placing it on a basis of importance and remuneration next to surgery ; takes but little time and doesn't interfere with other practice.

Determined that this System be placed where it belongs—with general practitioners—neither time nor expense was spared in preparing a wonderfully practical HOME P-G COURSE IN REFRACTION (University of Chicago Plan) with MOVIEGRAPH CLINICS—showing pictures and text simultaneously enabling you to see in your own office this Expert conducting Clinics refracting old and young while details are explained so clearly that Principles and Technique are mastered in spare moments of the busiest doctor.

A System that is simple, rapid, accurate ; with which more may be earned in half an hour than in half a day making calls.

Only a nominal sum, covering expenses, is asked and an Absolute Guarantee given. Must Be and Do all claimed. Professional and Bank references.

### FREE THIS MONTH

A Refractometer (takes place of expensive outfit, doing away with the ordinary, slow, tedious, annoying, inaccurate Trial case method) will be presented to each M. D. who enrolls this month.

Sign and mail Coupon direct to the doctor. No it Now, or the opportunity may go to another in your territory.

## Sal Hepatica

**THE STANDARD  
SALINE LAXATIVE**

Samples on request

**Bristol-Myers Co.**  
New York

## Vapo-Cresolene

Diphtheria bacilli, planted on blood serum, in Petri dishes moistened with sterilized water, were freely exposed to the air in an enclosed space of 119 cubic feet, regulated to body heat. At the end of twenty-six hours exposure to the vapor of Cresolene there was no growth evident on the serum. Smears from the latter on other specimens of serum failed to give any growth.

A second experiment was made to verify the first, the time of exposure being sixteen hours instead of twenty-six hours, with the same results as above.

*From tests made by C.J. Bartlett, M.D., Prof. Path., to determine the germicidal value of vaporized Cresolene.*

Vaporized Cresolene is to-day probably the most widely used treatment for Whooping Cough and Spasmodic Croup. It is indicated where it is desired to relieve cough; for the bronchial complications of Measles and Scarlet Fever, and for its prophylactic effect.
