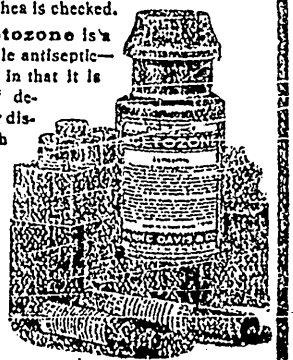
Acetozone in Typhoid Fever

What Clinical Trial Shows

1. Duration of the disease is cut short.
2. The most marked and disagreeable symptoms are ameliorated.
3. Temperature is reduced.
4. Delirium is terminated or much abated.
5. Tympanites is almost wholly avoided.
6. Diarrhea is checked.



Acetozone is a remarkable antiseptic—*powerful*, in that it is capable of destroying any disease-germ with which it can be brought into contact; *safe*, in that it may be taken internally, in aqueous solution, in quantities limited only by the capacity of the patient to swallow and absorb it.

Supplied in ounce, half-ounce and quarter-ounce bottles, also in vials of 15 grains, six vials in a box.

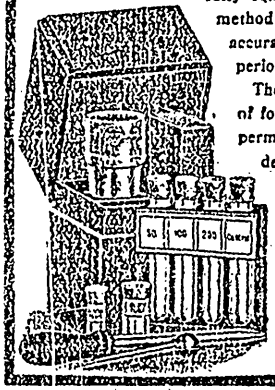
For Diagnosis of Typhoid Fever

Typhoid Agglutometer (No 2)

Our **Typhoid Agglutometer** simplifies the Widal test, obviating the use of the microscope and the fresh live culture of typhoid bacilli. It is fully equal to the former method in delicacy and accuracy, and much superior in convenience.



The apparatus consists of four tubes of a sterile permanent suspension of dead typhoid bacilli, a tube of blood-serum diluent, an empty tube for collecting the blood, a needle for puncture, and a pipette for withdrawing the separated serum. It contains material for fifteen to thirty tests.
