

MISSIONARY FIELD.

Christianity is spreading rapidly in Japan. Both in that country and in India the work is most encouraging. If prayers and alms go up before God for the conversion of these nations, we may see a mighty change, before the sun of the next century rises upon the world.

The conversion to Christianity of Achmed Tewfik Effendi is a great event. No convert of equal eminence has, it is believed, ever been won from Mohammedanism. He is in the very front rank of the Turkish hierarchy in learning and reputation. Christians everywhere will hope for good results from that conversion.

Another of the C. M. S.'s missionaries has been taken to his rest, the Rev. C. H. Blumhardt. He was a native of Wurtemberg, and was educated at the Basle Missionary Seminary, and the C. M. College at Islington; and he was ordained by Bishop Blomfield in 1834. In 1836 he sailed for Abyssinia, whence he was expelled in 1838 with Krapf and Isenberg. He was then transferred to India, and laboured in the Krishnagar Mission from 1839 to 1877, when he finally retired after forty years' service. His son, the Rev. E. R. Blumhardt, was also a C. M. S. missionary for nine years, and his daughter married Dr. Dyson, late Principal of the Cathedral Mission College, Calcutta, and now Senior Tutor in the Islington College.

THE TEMPERANCE CAUSE.

Baron Justus von Liebig wrote thirty years ago about the workman who resorts to spirits in order to enable him to complete his task:

"He draws, so to speak, a bill on his health, which must always be renewed, because for want of means he cannot take it up; he consumes his capital instead of his interest; and the result is the inevitable bankruptcy of his body."

Three petitions, with nearly two hundred thousand signatures, in favor of the Sunday closing of drinking saloons in England, were presented to the House of Lords on a single day of last month.

The Church of Ireland Temperance Society enrolled 11,000 members during the past year, and 87 parochial branches were inaugurated.

The work of Temperance Reform is, it appears, being taken in hand in Russia, where several of the Commissions charged to consider the question of drink in the central provinces of Russia propose to preserve the system of superintendance at present established with regard to the trade in intoxicants, and to impose a greater responsibility upon the local excise officers and police in cases of negligence or want of zeal.

The Women's Christian Temperance Union has recently dedicated the first sidewalk free ice-water fountain in New York City. It is an ornamental object, piously inscribed, and fed by pipes through an ice-box under the curbstone packed with three hundred pounds of ice.

What is Catarrh?

(From the Mail, Can., Dec, 14th).

CATARRH is a mucous-purulent discharge caused by the presence and development of the vegetable parasite ameba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are:—Morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, toxemia, from the retention of the effused matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces, or back of the throat, causing ulceration of the throat, up the eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death.

Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous-tissue.

Some time since a well-known physician of 40 years' standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fails in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers, Messrs. A. H. DIXON & SON, 305 King street west, Toronto, and get full particulars and treatise free by enclosing stamp.
