### CP RAIL

**Mr. François Gérin (Mégantic—Compton—Stansstead):** Mr. Speaker, yesterday, the Prime Minister announced in his speech on economic recovery that he would emphasize transportation links. Yet today we learned some very sad news for Quebec and for Canada, namely that CP Rail has requested authorization to end its service between Quebec and the maritimes.

Quebec will not accept this decision. The Eastern Townships will not accept this decision. The mayors and reeves in my region are upset. I urge the government to intervene immediately with CP Rail to stop this discrimination against Quebec and the maritimes. Trade between Quebec and the maritimes is now over \$4 billion and we want to keep it. Our jobs are at stake.

### THE VALOUR AND THE HORROR

**Mr. Don Blenkarn (Mississauga South):** Mr. Speaker, the Canadian Broadcasting Corporation ombudsman has declared that the drama documentary series *The Valour and the Horror* is flawed, that it fails to measure up to CBC's demanding policies and standards and that a number of the events and associations in the series are historically false.

That being the case, I call upon the Minister of Communications to direct the National Film Board to withdraw *The Valour and the Horror* from public distribution so it will not be available to schools and young people and the government will no longer be seen as denigrating the services of those who fought for Canada in World War II.

### CENTENARY HEALTH CENTRE

**Mr. Tom Wappel (Scarborough West):** Mr. Speaker, in 1967, the centenary of Confederation, a new hospital opened in Scarborough. Fittingly it was called Centenary Hospital. Over the ensuing 25 years Centenary Hospital has grown just as Scarborough has grown.

### S. O. 31

Today the hospital, now known as Centenary Health Centre, is on the leading edge of health care services in Scarborough, metropolitan Toronto, and Ontario.

This reputation has been earned and is well deserved. The combination of excellent administrators, competent and dedicated staff, and selfless volunteers has resulted in a health centre relied upon by the citizens of Scarborough for their well-being.

The Margaret Birch wing permits patients to recuperate and rehabilitate right on the premises under the continuing and watchful eye of their surgeons.

On behalf of my constituents and all residents of Scarborough, I offer congratulations and thanks to all staff and volunteers of Centenary Health Centre for a quarter century of service to the local community.

### JOB SEARCH

**Mr. Marcel R. Tremblay (Québec—Est):** Mr. Speaker, I would like to take this opportunity to salute the decision of a group of unemployed workers to get together and learn how to do a successful job search.

Several groups of unemployed workers are spending three weeks from nine to five, acquiring the tools they need to enter the labour market. Writing a curriculum vitae, introductory and thank-you letters, simulated interviews on video and targeting of potential employers are all part of the session.

The federal government is proud to be associated with this job search clubs project, aware that to have a satisfying job is a legitimate goal. Although these are difficult times, there is always room for excellence.

In an increasingly competitive world, standards are high and getting the right job means going all-out.

### CP RAIL SYSTEMS

**Mr. David Dingwall (Cape Breton—East Richmond):** Mr. Speaker, we were dismayed to learn today of a CP Rail Systems application to abandon all railway operations east of Sherbrooke. This is another example of damage to the economic infrastructure of this country caused by government negligence and its complete
