

28th March 1938

My dear Dr. Higgins,

I have passed on to Dean Fleming your letter about Mr. George Humphreys, who desires to apply for admission into the School of Medicine. As you know, they always have a great many more applicants than they can accommodate. I am asking Dean Fleming to consider the case sympathetically and I hope that Mr. Humphreys can meet the qualifications for entrance.

Dean Fleming will write to you himself. I am sure they will need to have complete details of his education up to now, in order to find out whether he is qualified. Out of a long experience, the School realizes that it is not in a man's own interests to allow him to enter unless he has a fair chance of keeping up to work required of him.

Yours very sincerely,

Dr. C. H. Higgins,  
Lederle Laboratories,  
30 Rockefeller Plaza,  
New York.
