

TWIN BROTHERS YEAST.

GOLD YEAST.

THESE two brands of Yeast have an established reputation of twenty-three years. No other Yeast can boast of one quarter such an existence. We do not glut the market with perishable goods, but endeavour to supply the Trade in quantities which will always keep our Yeast fresh in the hands of the consumer. The superiority of our manufacture has gained for us a world-wide reputation, and enabled us to carry off the Gold Medal at the World's Fair in Vienna, Europe, in 1872, against fifteen competitors from all parts of the globe. Beware of all unscrupulous imitations, which have only a mushroom existence. Ask your grocer for "Twin Brothers" Yeast and "Gold Yeast," when you can always depend upon having wholesome white bread made from *clean white Yeast*.
