AGINCOURT, March 2.—The annual seed fair of the Agincourt Branch of the Farmers' Institute, in the skating rink here this afternoon, was among the best ever held by the association. The exhibits of all kinds of seed grain, potatoes and other farm products were large and of especially good quality. Scatboro farmers are proverbially careful in the selection of seed grain, and to this end the excellent system of agriculture followed may be attributed much of the success attending their exhibits in the local and provincial fairs. William Doneity, the president, was in the chair, and following the judging, an interesting talk was-given by Mr. Steekley of Newmarket, district representative of the June session of the institute, which is always very largely attended, here will be three classes in judging—two in cattle and one in horses—and in these certain swards will be made. James Stewart is secretary of the institute.

R. L. Patterson, a well-known resident of the village, who has been seriously ill with blood-poisoning, has so far recoverad as to be pronounced out of danger.

Excellent progress is being made by the Blome Guards in drill under the command of George B. Little a South African veteran, and on several occasions military men from the city. The skating rink, which is admirably adapted for the purpose, has so far been used.

The Swansea Ratepayers' Association will meet tomorrow evening (March 11), at eight o'clock in the Windermera Avenue School. The business will probably include the election of a new secretary. Mitchell Crombie, with about a dozen other skilled carpenters, adversely affected by the scarcity of building work in the district, having accepted an engagement in the shipbuilding industry at North Bay, where they have been promised two years' employment.

Chas. T. Lacey, postmaster of Fairbank, having resigned, J. J. Little has been appointed to the position, and has opened premises at the corner of Dufferin street and Egiinton avenue.

The annual election of officers in connection with the Liberal-Conservative Association will take place tomorrow even-ing.

STOUFFVILLE

STOUFFVILLE, March 3.—On Friday evening the business men of the town will tender a banquet to Mr. J. A. Paterson, for the past four years associated with the Stouffville branch of the Toronto Vinegar Company. Mr. Paterson has, during his residence here, actively identified himself with every movement for the welfare of the town, and Friday night's event promises to be a big affair. The Belleville Vinegar Company are taking over the Toron o company, hence the change in management.

SUDDEN DEATH OF EDMONTON DENTIST

Dr. A. Montgomery, Who Was Visiting Parents in Toronto, Dropepd Dead.

INQUEST ADJOURNED

Circumstances Surrounding Death of Geo. A. Rollings Being Looked Into.

While visiting his parents at 22 Isa. bella street last evening, Dr. A. Montgomery, dentist, of Edmonton. Alta, dropped dead from heart failure. The doctor only arrived in Toronto early yesterday, and it was his irrst visit to his home in some years.

Dr. A. Montgomery graduated in 1894. He is a brother of J. D. Montgomery of the law firm of McMaster, Montgomery and Fleury, and also of R. A. Montgomery, lawyer. During the last four years he had been practicing in the Peace River district.

new bridge there, the inquest last night at the morgue under Coroner G. W. Graham, into the circumstances surrounding the death of George A Rollings, of St. Thomas, was adjourned until next Tuesday night. Rollings, who was 26 years of age, was found dead beside the north G. T. R. tracks at the foot of Strachan avenue on the night of March 1.

Fireman Weaver, when on the witness stand at the inquiry, told of finding the body while he, with his engineer, was bringing a light engine from Mimico to Bathurst street, about 10.23 at night. Yard Master George German testified that the body was found about two car lengths east of the Strachan avenue bridge, and had been dragged for six car lengths in a westerly direction. He also stated there was a train along the north track at 7.45 p.m.. The engine attached to this train was examined at Minico after the accident, but no sign of anything that would indicate that an accident of this nature had taken place was found.
