EARLY CLOSING

During May, June, July and August Store Closes SATURDAY at 1 P. M. No noon delivery.

HUMBER PLAN OPENS WAY FOR GREATER TORONTO

Annexation of Territory West of the Humber Assured—Botanical Gardens.

The Humber Valley boulevard and park scheme, launched by R. Home Smith on Tuesday, has already "caught on," and the proposition outlined in that gentleman's letter to Mayor Geary has already been drafted into a larger and more pretentious scheme. If the amplified plans are carried to fruition the city and province will unite to establish botanical gardens along the river, as it is reported that the government is willing to appropriate \$100,000 for such a purpose. The work of the Toronto University. This would undoubtedly make the city a center for gardeners and horticulturists from all sections of the province. Already Prof. Zavitz of Ontario Agricultural College is carrying on a similar work in connection with tree-planting in North York County.

Will Spy Out the Land.

Mr. Home Smith appeared before the board of control yesterday morning to explain the nature of his offer, and extended an invitation to the mayor and aldermen to visit the locality next Thursday, which has been accepted. Mr. Smith urged upon the board the necessity for speedy action in expropriating the Watson and Kennedy lots at the mouth of the Humber River. The former, he pointed out, was mostly swamp and unavailable for residential purposes.

"But the Humber is going to be the boating centre of Toronto and you will some day want to build municipal boat-houses there. This would be a fine site," he said. The board agreed to advise the council to expropriate the Watson lot, and will get a report on the 17-acre Kennedy lot, near Dundas-street. A further suggestion was to expropriate 100 feet west of the Humber along the lake front.

A Greater Toronto.

The board also decided on the policy of annexing to the city all the district between the westerly city limit and the Humber, which includes Swansea, and a report will be had to show how far west of the Humber the city boundary should extend in order to have both banks of the river under the control of the city.

Sentiment in Swansea appears to be in favor of annexation. There is lack of school accommodation; the Humber needs policing, and there is room for improvement in the postal delivery. R. C. Smith, chairman of the public school board of Swansea, expressed the view yesterday that the scheme would tend to increase land values. "The township has increased our assessment to four or five times what it was, so we are right upon a level with west end city values right now," he said.

New Car Line to Humber.

"If this plan is approved, it will probably mean that a street car line will be laid right out Bloor-street, past High Park, bridging the big ravine and extending to the Humber. Then when the city takes over the Lake Shore road radial line to a point 600 feet west of the Humber, next January, we should have a one-fare car service on the south, too. This territory is not a newly annexed district, and it is likely that under the agree-

ment the Toronto Railway Co. would have to operate their cars on it. Whether they are forced to or not, it would be policy for them to do so. Another improvement the Swansea people may ask for is an extension of Grenadier-road eastward across the north end of Grenadier Pond and thence crossing High Park, to connect with Howard Park-avenue. This could be made a pretty carriage drive at small expense."

The whole scheme will go before Park Commissioner Wilson.

REV. MR. SEAGER'S QUANDARY

Called to Grace Church After Accepting New Westminster's Invitation.

Rev. A. C. Seager of St. Cyprian's Church, has been invited by the congregation of Grace Church, Elm-st., to accept the rectorship of that church. Canon G. L. Starr of Kingston, accepted the call to Toronto, but later changed his mind. This prompt action was taken as Dr. Seager is now considering an invitation to New Westminster.

The new Grace Church is to be located on College Heights, where many of the congregation have lately moved. The building on Elm-st. will be sold, and the proceeds will be used to help towards the erection of a new edifice.

Mr. Seager is in a quandary as to what course he will take. A week ago he decided to go west, on the invitation of the Bishop of New Westminster, and accepted the terms offered. Since then the Bishop of Toronto has ordered him Grace Church, but he is in honor bound to accept the call to New Westminster, unless the western bishop releases him. Mr. Seager has called the facts of the case to the Bishop of New Westminster, who is at present in England, and will wait to hear from him before he takes any definite action.

REV. DR. YOUNG ACCEPTS.

MONTREAL, May 17.—At a private meeting of the members of the Montreal northern district of the Methodist Church, Rev. Dr. W. R. Young announced his decision to accept a call to Broadway Tabernacle, Toronto, as soon as his term expires in Douglas, Methodist Church here. He will go to Toronto in the third week in June, 1911.

THE HAMILTON TRIPS.

Commencing Saturday, May 20, the steamer Macassa will make a round trip daily out of Toronto, leaving at 9 a.m., returning leave Hamilton at 5:30 p.m., arriving at Toronto at 8:15. This service will give Toronto citizens the benefit of a five-hour stay in Hamilton. The 59 cent return Saturday rate will be in commission for Victoria Day, and with the Macassa will furnish a special holiday service.

Hull Wants Printing Bureau.

OTTAWA, May 17.—Hull wants the new printing bureau, and it is going to move heaven and earth to get it. The board of trade, the city council, and all the influential people of the Trans-Canada City are into the campaign, and Hon. Chas. Murphy, the secretary of state, is going to be subjected to a siege of deputations.

The funeral of the late Roman Catholic Archbishop McEay, and the incidents connected therewith, are aptly pictured in this week's Sunday World. The numerous views and portraits reproduced will form a fitting souvenir of this sad event.

GIVEN SEVEN DAYS TO RAISE BROKEN INTAKE

Job May Cost \$30,000 Say Contractors, Who Will Be Allowed Free Hand.

Contractors may now put in their tender for the work on the intake pipe, but they will have only seven days in which to do it. The terms are left wide open, and the tenders can either go on the specifications which have been prepared by Waterworks Engineer Fellows, specifications prepared by themselves, or tender for the job as a whole, or on the percentage basis. This was the way Controller Church's motion ran, and it appeared satisfactory to both the board and the contractors.

The contractors wanted to know if they could use the city's equipment to explore the depths and see how long it would take them to do the work. Mr. Fellows readily agreed to this. The specifications ask a \$10,000 bond from the tenderers, but the board lowered this to \$5000. If a perfectly satisfactory tender is made by any one it is possible that this will be taken off altogether.

BIG CONVENTION OF VETS

Twelve Hundred Delegates Expected Here in August.

The 48th annual meeting of the American Veterinary Medical Association will be held in this city Aug. 22, 23, 24, and 25. Dr. E. A. A. Grange is chairman of the local committee, Dr. D. King Smith, treasurer, Dr. J. S. O'Leary, secretary, and other members of the committee are: F. C. Grimshaw, J. A. Campbell, J. P. Bond, Wm. Cowan, T. E. Hurd, W. J. D. Fowler, Chas. Elliott with H. J. P. Good as business manager.

It is anticipated that there will be from twelve to fifteen hundred delegates with their friends in the city during the convention. The meeting will be held in Convocation Hall, University of Toronto, which President Falconer has kindly placed at the disposal of the local committee. The 47th annual convention was held at San Francisco last year, there being between six and seven hundred delegates in attendance.

As Toronto is so much nearer the greater cities of America, it is expected that the number in attendance will be easily twice as large as at San Francisco. In previous years the average attendance of delegates at these meetings has been nine hundred to one thousand. Geo. H. Glover, Fort Collins, Colo., is president.

In connection with the convention an exhibition of surgical appliances and other articles used by the veterinary profession will be held in the hall. Dr. Grange has been engaged with Dr. King Smith in making the local arrangements for some time past, and says the convention will be the largest and best attended the association has ever had.

South Ontario Liberals.

South Ontario Liberals will hold a convention at Whitby on Saturday afternoon next, to be followed by a rec-

The Toronto World

THIS CERTIFICATE, with 25 others of consecutive dates, (Sundays excepted) if presented at the business office of THE WORLD, 40 Richmond St. West, will entitle the bearer to one WORLD COOK BOOK absolutely free. If the Cook Book is to be sent by mail, send the necessary certificates in an envelope, also inclosing 14c in stamps, to the Cook Book Editor, care of Toronto World. Not more than one Cook Book will be given to one person.

This is an opportunity for every good housekeeper to become possessed of the very best Cook Book on the market. The size is 8 1/2 x 11 1/2. It is substantially bound in oiled muslin and is designed for utility.

Caution—Not more than one coupon bearing the same date will be accepted.

PEOPLE'S RAILWAY EXTENDED

Understood Intention is to Push Line Thru to Detroit.

It is reported that the People's Railway, on which construction work has been done from Quebec to Berlin, will extend from Toronto to Detroit. A contract was signed at Toronto yesterday between a Mr. Van Norman, representing Michigan capitalists, and the company.

SON OF ALD. CHISHOLM DEAD.

Sympathy is with Ald. Chisholm from his wide circle of friends in municipal, business and private life, over the loss yesterday of his little son, William Douglas, who passed away after a short struggle with a complication of diseases. He had been ill with diphtheria and heart trouble coming on, made a consultation of physicians on Tuesday necessary. Their efforts availed little, however, for the 3-year-old constitution could not stand the strain and he gradually sank until last night, when he end came. The funeral will be strictly private.

Objects to Level Crossing.

From another source comes combat to the C.P.R.'s plan of crossing Spadina-avenue on a level crossing. Dr. J. O. Orr, manager of the exhibition, declared yesterday that if the idea went thru it would put an end to all hope of rapid transit from the Union Station to the exhibition grounds.

Mrs. Fraser in Town.

Mrs. Michael Fraser, of romantic fame, was in the city yesterday. She declared that her husband had not been in very good condition of health since his trying interview with the judges and doctors.

HIGH SCHOOL OF COMMERCE

Three Business Courses Recommended by Commercial Committee.

Toronto's first civic "commercial school" will be termed "The High School of Commerce and Finance." At a meeting of the advisory committee this was the name decided on.

INSUFFICIENT FIRE PROTECTION.

MONTREAL, May 17.—Chief Tremblay appeared before the board of control to-day and deposited his report upon the inspections the fire captains have made of all the apartment houses in the city and moving-picture shows. In regard to the apartment houses, the chief states that "in nine cases out of ten the houses are not provided with proper or sufficient protective apparatus against fire, and in many instances there are no fire escapes at all."

BOURASSA'S CAMPAIGN.

QUEBEC, May 17.—It was announced to-day that Mr. Bourassa will inaugurate his Nationalistic campaign on May 31, by mass meeting and demonstration in the Ontario Skating Rink. Mr. Bourassa, Mr. Monk and Mr. Armand Lavergne will be the chief speakers.

Some Big New Buildings.

Building permits for three big buildings were granted yesterday by City Architect McCallum. They were to Mr. Rawlinson for a \$30,000 warehouse on St. Nicholas-street, the Western Baptist Church, Queen, and Callendar-street, for a \$40,000 church and Sunday school, and the Toronto Carpet Co., Mowat-avenue, a five-story factory, \$20,000.

WILL INSURE MUNICIPAL BUILDINGS.

MONTREAL, May 17.—Following yesterday's fire, which destroyed the civic water-works shops, the board of control has decided to insure all municipal buildings in the city against fire. The value of the buildings, exclusive of land and furniture, owned by the city, is entered in the city assessor's books at \$5,275,550, of which \$51,800 is put down as the value of the city hall.

UNDERBID CANADIAN FIRMS

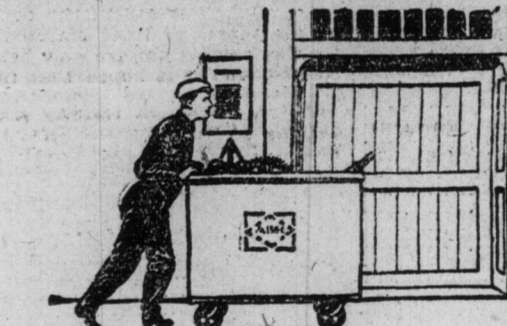

Big Contract for Bank Steel Vaults Goes to York, Pa.

The contract for the construction of the steel vaults for the new Bank of Toronto building at the corner of King and Bay-streets, has been awarded to the York Safe and Lock Co. of York, Pa. The contract price is said to be about \$150,000, and the difference in favor of the American builders was \$30,000.

Sound Argument.

You can't feel energetic unless you are well and you can't feel well unless your stomach and bowels are well looked after. St. Leon is a natural spring water, heavily charged with iron, sulphur, magnesia and a dozen other minerals. You get it just as it flows from the black rocks in the north country, in all its sparkling purity. From dealers, or Main 1321.

A representative of the J. & J. Taylor Safe Works said that there was room for a large difference in tenders for lock work, as the specifications were loosely drawn, and vault workers usually specified a certain size and class of vault built for the amount named. Protection, he explained, the nominally 30 per cent, was actually only 15 per cent, as a duty of 15 per cent, was levied on steel imported for the manufacture of vaults.

The economies which an elevator effects in a factory

Probably in no department of industrial activity is the need for economical production more urgent than in the factory. Competition, keen and perpetual, drives prices to the smallest margin of profit. Careful restriction of overhead expenses, therefore, is vitally essential. Take, for example, a machine shop where "parts" are stored in a flat above. If there is no other means but the stairway, of transferring "parts" from one floor to another, think of the tremendous amount of labor thus involved. Time spent on this work by workmen who might be more profitably employed at something else. Money spent on wages that would otherwise be counted as profit. Excessive hand labor for work which

OTIS FENSONM FREIGHT ELEVATORS

could do, far more expeditiously and economically. With an Otis Fensom Elevator raw materials and "parts" may be stored in the flat above, the ground floor being kept for manufacturing purposes only. Also the work of storing and collecting can be accomplished in one-half the time and with one-third the labor required by the old slow method of carrying the load up and down stairs by hand. The initial cost is light, and your regular line shaft can be used if an Otis Fensom is installed. For those who do not require or cannot use a belted elevator, there is our latest improved design of Hand Power Elevators. These elevators are constructed throughout in a thoroughly substantial and workmanlike manner, and are equipped with our improved steel roller bearings, which run with the least possible friction and without oiling. The brake is a new design of very powerful cam, which will stop and hold the car with its heaviest load at any point. It has also other special features which commend it from a safety point of view.

Send for our illustrated book, "Freight Elevators and Their Uses." Please send me a copy of your book.
