Expect to Save Nearly Two Dollars a Ton Under New Arrangement.

Belleville has been given the power to engage in municipal coal and food business by the Ontario Railway and wreck which Municipal Board which heard evidence as to why this should be allowed, at taining that the service rendered was

The decision of the board, however, is that the city may invest \$12,500 in a nicipal coal yard and \$12,500 in a food business. Figures were quoted by T. F. Wills which showed that including a profit of 50 cents a ton, which the order of Fuel Controller Magrath allows, the price of coal in Belleville should be \$10.38 a ton, while the prices actually charged were from \$12 to \$15 a ton, anthracite. The higher

figure was for half-ton lots.

A Robinson in presenting the case to the board from the city's point of view, stated that during the past few weeks there has been serious shortage of coal and he believed this condition would not have existed had the city been able to conduct its own yard. He

Ald. J. E. Parks gave evidence in to show that it was much higher. He maintained that everything possible was done to supply coal at the proper price. The board, however, ruled in favor of the municipality.
