

Faecal matters generate disease if retained too long.

4. They regulate the organs of the system, restoring functional harmony and securing the secretion of the proper constituents of each organ. By their action, the liver secretes its allotted proportion of bile—the lungs carbon, the skin sweat, the kidneys urine, etc., and are always reliable as a purgative.

5. The aged, and persons subjected to Constipation, Paralytic, or liable to Paralysis and weakness of the Bowels, Kidneys and Bladder, etc., that have to resort to injections, by taking two or three of Radway's Pills, will enjoy natural discharges, and by the occasional use of them have regular operations. In these cases their strengthening and nutritious principles are exhibited; every dose will add new strength to the Bowels, Liver, Kidneys, etc., that may be worn or depleted by age.

6. In these Pills, a want that science has ever failed to supply is secured, and this is a thorough purgative, that can be given in safety in cases of eruptive fevers, as Small-pox, Erysipelas, Yellow Fever, Scarlet and Typhoid Fevers. When the mucous membrane becomes ulcerated, these Pills act thoroughly, yet heal ulcerated and excoriated parts.

7. Radway's Pills are made from extracts—from new ingredients—entirely vegetable, superior in every respect to the ordinary powders and substances of the common advertised Pills, and have a safe, certain and uniform action.

#### **Elegantly Coated—No Taste or Smell—Scouring the Insides.**

Persons who take Pills for the purpose of getting "a good scouring out," are perhaps not aware that they are wearing away their intestines, irritating the Mucous Membrane, and laying the foundation for Piles, inward Ulcers, Sores, etc. *Mandrake*, that is claimed by some to be a substitute for Mercury, will produce this effect; it will scour the bowels like any other drastic, and will wear them out. (See page 663, Wood & Bach's U. S. Pharmacopœia.)

22 W. LIBERTY ST., CINCINNATI, O., May 9th, 1878.

Dear Sirs: I, for over two years, have been troubled with pain in my side, also with a pain in the lower part of my stomach. If I would walk one or two squares from the house I would always have to stop on the way till the pain would go away. Having tried two or three of the best doctors here in this city, but they could not do any good, and becoming afraid of this, seeing they could not cure me, I met one of my friends who told me to try your Sarsaparillian and your Pills. I had no more than taken one bottle, also one box of your Pills, and I felt just as healthy and as strong as a new man. I am on the second bottle of your Sarsaparillian and Pills, and I shall never be without it in my house as long as I live, etc.

Yours truly,

ANDREW F. WEHRLE.

CHEBANSE, ILL., July, 1877.

RADWAY & Co.—Gentlemen: Your Pills have often warded off sickness in my family. I never think it safe to be without them; they are a fine, sure medicine.

Most respectfully yours,

HENRY KENWORTHY.

CHEBANSE, IROQUOIS CO., ILLINOIS.

#### **What a Physician says of Radway's Regulating Pills.**

I am selling your R. R. Relief and your Regulating Pills, and have recommended them above all pills, and sell a great many of them, and have them on

Fallacious experience retards the medical art.

Sudden vicissitudes of temperature are dangerous.

Male Fœtuses incline to the right, female to the left.
