McIntyre & Wardwell send the following despatch to their branch office in Toronto: London is adversely affected in all its departments by the fear of further trouble in South Africa. Our market developed a decidedly, reactionary tendency this afternoon on the lack of foreign support, the transactions being also on a very much smaller scale. The new Government 4 per cent. bonds were quoted at 115% this afternoon. There were several stories affoat in this connection, the bellef being that a subscription for \$4,000,000 at 115% has been unable to complete the purchase, the premium of ½ per cent. for free gold swallowing up any profit. A withdrayal of \$500,000 gold from the Treasury for shipment to South America was announced. Foreign exchange is steady at \$4.874% to \$4.874%. The earnings of Chicago Gas Company since beginning of year are said to be most satisfactory. The anthracite coal trade is described as very dull, the unseasonably warm weather causing a decidedly slack demand for coal. vate Liverpool was firm, but the market hactive. Northwest receipts were fairly liberal, 428 cars. The winter wheat is now well covered with snow and free from any immediate damage. Argentine reports are still conflicting, but it is known that their crop will in any case be late, and that for some time Europe must get her supplies from this country. We repeat our advices—on any fair reaction buy wheat. Exports today about 470,000 bushels in wheat and flour. Corn and oats ruled fairly steady, and a Corn and oats ruled fairly steady, and at times were stronger in sympathy with wheat, but on the advance there was free seiling by the professionals, forcing values down about %c. On increased receipts we look for lower prices for corn.

Provisions—A fairly active market and prices slightly higher. Packers were fair buyers of pork and ribs on the weak spots. Receipts only fair. Outside orders were fair and chiefly on the buying side.
