A MUSICAL TREAT

The Mehan Concert Company, Under the Direction of Miss Inez E. Smith, Delights a Large Audience at the Auditorium.

The fifth concert of the popular course series was given in the Auditorium last night, when the spacious building was completely filled with an appreciative audience, who were very liberal with their applause, encoring every number on the well-selected programme. The Mehan Concert Com- One Man Killed and Several More or pany, under the direction of Miss Inez E. Smith, soprano soloist at the First Methodist Church, gave the concert, which did Miss Smith and every artist taking part, great credit. It could truly be termed one of the musical treats of the season.

Mr. George L. Angus, violinist, of this city, who is now studying in Detroit, made his first appearance here this season, and he became a general favorite from his first selection. He was given a number of hearty encores, and gracefully responded. Mr. Angus has certainly made rapid strides under

his new instructor. Mr. Edwin C. Craine, of Detroit, possesses a rich baritone voice, which he displayed to advantage in his dif-ferent selections. He will always be a welcome visitor to London. Miss Agnes Hull-Simpson, reader, captivated her hearers in her rendition of "Matrimonial Difficulties of Gavin Birse," (from J. M. Barrie) and "Leah, the Forsaken." In each number she showed her marked elecutions as a billion. showed her marked elocutionary abili-ties to advantage. She was repeatedly encored.

[G. N. W. Special to The Advertiser.] Toronto, Jan. 20 .- Ald. Wim. Burns' icehouse at the foot of Logan avenue, east of the Don, was the scene of a terrible boiler explosion at 12:30 today, as the result of which probably two men will die, while several others are seriously injured.

The ice crop is now being harvested, and a small portable engine had been hired to supply power for the eleva-

At the noon hour, the men were gathered around the engine, which was in a small frame structure. They were eating their dinners. Afterward all went out, except Engineer Evoy and an Italian teamster, Frank Cairo. A few minutes later a terrific explosion occurred, and the frame building was blown into pieces.

Several of the men in the vicinity were more or less badly injured by flying debris, and the two men inside were found to be terribly hurt.

Later—Evoy died at half-past one o'clock in the emergency ward. Cairo, it is thought, will recover, and the other men, while seriously, are not

Presbyterian Council Heartly Indorse the Action of St. James' Church in the Proposed Move to the North.

The presbyterial council of the city of London held a meeting last night to consider the proposed removal of St. James' Presbyterian Church to the north end. Rev. Thomas Wilson occupied the chair, and in the absence of Mr. George Armstrong, Mr. C. R.

Somerville acted as secretary. Rev. George Gilmore, pastor of the London Junction Presbyterian Church, read and exceedingly fine paper on "Church Extension in the Northern Part of the City," after which Mr. A. S. Macgregor and Rev. J. G. Stuart, moved the following resolution:

"After listening to Mr. Gilmore's admirable paper on the extension of Presbyterianism in the northern part of the city, and the discussion which it provoked, this council is unanimously of the opinion that a regular congregation should be established in that locality, and we rejoice to know that St. James' congregation has decided to occupy that field, and we most heartily commend their action to the moral and financial support of the Presbyterians of this city." This was unanimously carried. Rev W. J. Clark delivered an enthusiastic address, in which he advocated a closer relationship between the city churches and the exchange of pulpits. A motion to refer the matter to Urge Bishop Baldwin to Re-Call the the consideration of the sessions of the Appointment of Canon Richardson different Presbyterian churches was passed, and a report will be submitted at the next council, when the election of officers will take place.

LAKE HURON

On Her Way Into Halifax Harbor With 2,100 People on Board.

[G. N. W. Special to The Advertiser.] Halifax, N. S., Jan. 20 .- The steamer Lake Huron, with the 2,100 Doukhobors from Batoum on board, is entering the

harbor. Deputy Minister Smart received word today that the Lake Superior, the ship bringing out the second lot of Doukhobors, had on board 1,989 souls. She may reach here only a few days behind the Lake Huron, but even if this be the case, the landing of over 4,000 people in such a short time will not tax the energies of the department or the railway, for both are fully prepared.

INSANITY'S DEBT TO MEDICAL

SCIENCE. Insanity is now recognized a ease which is the result of some functional or organic disturbance of the brain, or of some injury or malformation of that organ. Be it said to the everlasting credit of medical science that it has rescued the whole subject of the diseases of the brain and nervous system from the region of myth and superstition, and placed it on a scientific plane along with the other disease and injuries to which human flesh is heir. The old lunatic asylums, and the filthy cells of the county jails, with all their horrors, where the victims of dethroned reason used to be confined and tortured, have been abolished, and in their place we now have the modern hospital for the insane. And it stands on the same footing in every respect as a hospital for diseases of the eye and ear, or any other medical specialty. It was not the churches, but medical science inspired by a desire to benefit mankind, which taught the world that the insane are our brothers still, and that to them is due the same Christian charity and care as to any others in distress .- Dr. John Girdner, in North American Review for January.

THE DAIRYMEN **ELECT OFFICERS**

Close of the Convention of the Western Cheese and Butter Men.

Guelph, Ont., Jan. 20 .- Yesterday the members of the Cheese and Butter Association visited the Ontario Agricultural College and Dairy School. Everything in the creamery and home dairy buildings was in perfect running order. It was a splendid sight to witness the young men and women, with their spotless white dairy attire, working at butter and cheese-making in its vari-

ous branches. At the closing session of the convention it was voted that the directors of this association be requested to lay before the passenger agents of the various railway companies in Canada the excessive charges of transportation to parties attending the annual convention of the Cheese and Butter-Makers' Association of Western Ontario, with a view to securing cheaper rates and more simple methods for the future.

It was moved by A. F. MacLaren, and seconded by J. N. Paget, "That this association having since its last convention lost by death one of its oldest members, Mr. John Robertson, of Ingersoll, the members of the association in convention assembled desire to place on record the high esteem in which Mr. Robertson has always been held, and, further, that, as a cheese and butter-maker and an instructor and exporter, he had largely aided in bringing the butter and cheese trade of Canada to its present high standing." The motion was adopted by the meeting.
