THE CHINESE SITUATION. London, Jan. 22 .- The Daily Standard, in an editorial today, presents what is presumably the official Conservative view of the Chinese situation. It says: "A calm survey of the situation as it exists on the spot, scarcely encourages the hope that by the mere lapse of time everything will arrange itself. Russia and Great Britain are now in a position in which either one or the other will have to give way. It ought not to be Great Britain. If our foreign office on this occasion permits the threats of the czar's charge d'affaires to coerce the Tsung Li Yamen into a rejection of our terms, there will be an end to our influence at the imperial

"It is not the first, but it is unquestionably the crucial trial of strength. St. Petersburg has chosen the ground and thrown down the challenge." The Standard, continuing, says that there is no lack of means for asserting in action the principle that has been so unequivocally expressed in the words "If necessary, at the cost of war," uttered by Sir Michael Hicks-Beach recently, and concludes :"Japan is stated to be acting in concert with the United States during the diplomatic struggle with the Tsung Li Yamen. The naval strength of the two great states in-strength of the two great states in-terested in maintaining inviolate the status quo is overwhelming. If, un-happily, the question of mastery has to be decided by force, it is hard to see how the policy of commercial liberty and equality can be resisted."

CONFESSED TO POISONING CATTLE.

Watford Advocate: On Monday afternoon Alexander Hay, a well-known Warwick farmer residing on the London road, was arrested by Officer J. F. Elliott, charged with poisoning two steers, the property of Wm. Walker, on Nov. 4 last. The accused was brought before Squires Shirley and McLeay, and admitted his guilt. Hay has had some trouble with his family recently, and the poisoning incident leaked out. He had been on bad terms with Walker over the impounding of some cattle. The poison used was paris green, which was given to the cattle at night, mix-ed with salt. His friends claim that he is not responsible for his actions, owing to mental worry.

peals has rendered judgment in the case of Mr. E. B. Eddy, the extensive match and paper manufacturer, of Hull, against his daughter, Mrs. Joseph B. Bessey, nee Eila Clarisse Eddy, in which \$187,000 was involved. Mrs. Bessey was the only daughter born of Mr. Eddy's first marriage, Mrs. Bessey was named by her mother as her sole heir, and under the will claimed the Eddy homestead and certain other property. Mr. Eddy took out an action to recover the amount named above, claiming that it was made up of advances to his wife and sums expended on the property. The court of appeals practically confirmed the judgment of Judge Gill in favor of Mrs. Bessey, stating that Mr. Eddy had acted in the capacity of an agent for his wife and his daughter, and that he should first have rendered an account of his administration. The interesting point, regarding whether the law of Quebec or that of Vermont, where the first marriage took place, where the first marriage took place, was to apply regarding the donations made by the husband to the wife, was and not decided, the court reserving it uncosts of sale paid out of the \$80.
