that time was \$144,240,541. A gradual and steady increase in production as

well as consumption has transpired since. Taking the year 1909, which is

nearly at an end, the estimated, and think under-estimated production,

will be 80,000,000 cases and in value,

conservatively figuring, will amount to \$528,000,000.

TURKEYS ON THE FARM.

In this day of rapid; progress the

farmer should not lose sight of the large profit to be derived from the

turkey. There is no poultry or other live stock that will return so large a

profit to the successful producer as will turkeys when properly handled.

If domesticated enough to be raised

naturally they well may be termed self-sustaining foragers. The mother

may be placed in the meadows with

no feed or attention if there is con-

answer for turkeys.

Here they will secure their entire

living: much of it from grasshoppers,

bugs, and the various insects that are

grain. They are veritable gleaners, picking up the waste grain in their

wanderings, which assures steady

growth at no expense. The farm is an deal home for the turkey and the tur-key is the ideal profit-bringing bird

for the farmer, and as soon as the farmer understands managing and

earing it he will be glad to be called

THE WEATHER JOHN CATTO & SON

OBSERVATORY, TORONTO, Jan. 3.—
(8 p.m.)—A disturbance situated tonight in the St. Lawrence Valley is
developing rapidly, while the severe
cold wave is now centred in the Northwestern States. Light snowfans have
occurred from the lake region to the
Atlantic. Stormy weather is indicated
for the maritime provinces, and very
low temperatures promise to prevail
everywhere.

—Probabilities—

Lower Lakes and Georgian Bay—
Strong northwesterly winds, decreasing at night; fair and very cold temperature, much below zero in most places.

a favorite. It has remained for modern scientific agriculture to find out the reasons and utilize the results. So much for book-farming!

It is well-known to all farmers at least, that hog cholera has cost the farmers of the United States immense losses. Even in Canada where corn feeding and hot weather prevail as in Essex and Kent counties, the scourge means much loss to the farm exchequer. Toronte residents have had cases of wholesale herds being affected right at their doors recently. The curly-tailed pig is never sick. That is, a sick pig will not earry those peculiar

Mount Forest-Mayor, J. J. Cook sick pig will not carry those peculiar

kinks in his tail.

But it has remained for the Kansas Agricultural College to discover that the more kinks a pig has in his tail, the more valuable he is. Here is their schedule of propable prices based on Thered Mayor A McCulloch ac-Funeral Tuesday, Jan. 4th, at 2.30, to Prospect Cemetery.

South Norvich—Reeve, Innis; councillors, W. Broule, L. N. Tanney,
Contest was for the reeveship. To the council and mayor
being elected, by acclamation the only
contest was for the reeveship. To the council of the counc

deal more in assets in the trans action than we are in liabilities.

We are not going in debt for a "dead horse," but for a live, producing street railway system in a flourishing city. It is a cash business, and patrons have to pay in advance. From trons have to pay in advance. From the very beginning the system will commence paying for itself. In the same manner will the betterments and xtensions mentioned in the report be

taken care of.

Then they try to frighten us by saying that "in the not distant future wir will have to build a subway." In that connection I would just say that we haven't got to that bridge yet, but when we do we will be able to cross it a good deal easier than could the D. II. R.

How Edward Brown, 241 Milwaukee-avenue, Detroit, who was one of the citizens "committee of fifty," appointed to investigate the street railway situation of that

tem, the previously opposed, he h.m. self tells in a letter to The Detroit News-Tribune. He says:

A year ago, without ever having made any investigation into the merits of municipal ownership. I was inclined to the belief that the best way clined to the belief that the best way magnificent present from the hands of the cettle the streat car proposition for the City of Detroit.

Woak.

Morrisburg—Reeve, J. H. Meikle; councillors, R. E. Gibson, I. Hilliard, J. D. Bain, W. G. Becksted; school trustees, D. C. Bush, C. S. Colquhoun, H. L. Whittaker.

Fenelon Falls—Reeve, Dr. Gould; councillors, J. McFarland, John Shane, R. H. Martin, S. Corbett.

Port Perry—Reeve, H. G. Hutcheson; chael, J. L. Forman, James Stone-house.

Millbrook—Reeve, J. C. Kells; councillors, George E. Burnham, John Melonder, George Gerow, H. Carnillor, George E. Burnham, John Melonder, George Gerow, H. Carnillor, George E. Burnham, John Melonder, George Gerow, H. Carnillor, Geor

ourselves from the bondage and thraldom of a greedy corporation. Not that the D. U. R. is any worse than any other; they are all alike seeking all the time and at every opportunity to grind more dollars from an unthinking public, and to give as little as they possibly can in return.

Ashamed of Report.

the same value to their rightful owners of the monopoly.

Must Patronize the Monopoly.

Third—Because if privately wined, the few (that is the owners) are getting wealth at the expense, of the monopoly; you must either ride in their monopoly; you must either ride in their rightful owners.

out what municipal ownership of public utilities really means for a community.

For twisted and perverted mis-statements this majority report is certainly the limit. It is such a conglomeration of mis-information that I scarceation of mis-information that I scarceaty know where to commence to attack ly know where to commence to attack ly the limit of the limit is such a conglomeration of mis-information that I scarceation of mis-information infor In the first place they seem to think that because Monroe, La., is the only to build the extension? But the questity in the United States where they tion will be: Is it a public necessity?

Sixth—Because employes being united to the property of the prope

> influence in any way in of pay better wages, reduce the hours ame and employ more labor.
> Eighth—Because, havin no divi-

cient service, while carrying people 1: In conclusion, I wish to add that we

Why compare wages and conditions here with those in European cities?

All know that nearly all wages are much smaller in Europe than in America and the cost of living. I believe is less than half. Why not play fair? Why not compare wages and hours of labor under municipal ownership in labor under municipal ownership in
