MENAB NOT AWARE OF ALLEGED GRAFT

Cabinet Minister Testifies in Battleford Asylum Inquiry.

REGINA, Aug. 18.—Hon. A. P. McNab was called to the stand in the Battleford Commission probe of the Battleford asylum construction this morning. J. F. Bryant was charged by Commissioner Newlands with attempting to deceive the commission in regard to the costs account percentage on the construction of the spur track, which by agreement was to be 15 per cent, but which on payment was cut down to 10 per cent. Bryant hotly resented the charge. The chairman, Sir Frederick Haultain, smoothed matters out eventually.

Mr. McNab's evidence was largely negative. He was the minister in charge of the public works department through the construction of the asylum, and had let the contract himself, on the basis of a memo. given him by the deputy. He knew, he said, of no arrangement to give the Saskatchewan Building Construction Co. the contract and did not know that the other tenders were of the "friendly" variety. He did not know that any of the several deputy ministers holding offices successively under him held interests in companies holding sub-contracts.

HAMILTON FIRM PRAISED BY MUNITION MINISTER

President Baillie of Canadian Cartridge Co. Does Great Patriotic Deed.

LONDON, Aug. 18.—The minister of munitions communicates the following instance of patriotism on the part of a Canadian firm. When Lord Rhonda was representing the ministry of munitions in Canada he had negotiations with the Canadian Cartridge Company, Hamilton. The firm took a large contract for the manufacture of cartridge cases and it announced its intention of returning to the government the difference between the contract price and the cost of manufacture. The firm has now completed its work in advance of the scheduled time. F. W. Baillie, president, has handed to the imperial munitions board in Canada a cheque for \$758,248, the difference between the contract price and the bare cost of materials and manufacture without any allowance for the amortization of the plant. The minister of munitions has addressed a very warm letter of thanks to Mr. Baillie.

Special to The Toronto World. ST. THOMAS, Ont., Aug. 18.—William J. Smith, son of J. W. Smith, Pere Marquette engineer, St. Thomas, who was taken from the lake at Port Stanley in a paralyzed condition, was today pronounced by St. Thomas physicians to be suffering from infantile paralysis.

Another case was also found in the city today. Leslie McBain, 4-year-old son of John McBain, who had been visiting near Belmont and taken ill there, was brought to the city. What To Use and Avoid On Faces that Perspire

Skin, to be healthy, must breathe. It also must perspire—must expel, through the pores, its share of the body's waste material. Certain creams and powders clog the pores, interfering both with elimination and breathing, especially during the heated period. If more women understood this, there would be fewer self-inflicted complexion ailments. This remarkable substance actually absorbs a bad odor from the face, and keeps the skin fresh, younger, under-skin is permitted to breathe and to show itself. The exquisite new complexion gradually peeps out, one free from any appearance of artificiality. Obtain an ounce of cream, or a week or two, washing it off morning. Apply nightly like cold cream, for a week or two, washing it off morning. To remove wrinkles, here's a marvelous effective treatment, which also acts naturally and harmlessly: Dissolve an ounce of powdered ascorbic in a half pint of witch hazel and use as a wash lotion.
