NEW DREDGE MEETING

EXPECTATIONS IN THE COURTENAY BAY WORK

The Norton Griffiths dredge Don Federation, which is now at work in Courtenay Bay, inside the breakwater, is making excellent progress, and is fulfilling the expectations of the company's officials. At present she is standing on the mud at low tide, and can work only when the tide is high. In a very short time, however, she will have dredged a basin of sufficient size to enable her to dredge at all times of tide, and she will then be able to work continuously.

The other work which is being carried out by the company and their contractors, the Courtenay Construction Company, is also progressing favorably. The new wharves are being pushed out towards the mouth of the harbor at a rate which is proving satisfactory to the contractors.

The local office has not been advised definitely when the head of the company, Norton Griffiths, M.P., will arrive in St. John, but he is expected here next week and it is thought will arrive about the same time as Hon. Messrs. Rogers and Hasen.

TEN BOYS IN JUVENILE COURT

At a session of the juvenile court this morning before Magistrate Ritchie ten boys were arraigned, seven on charges of being members of a disorderly crowd at Dorchester street extension, and three reported for truancy. They were severely lectured and were sent to the guard room where they remained for some little time, and where they seemed to be enjoying themselves as well as could be expected. His Honor told the boys charged with disorderly conduct that they would each be liable to a fine of \$8 or two months in jail, and he added that if it could be determined that any of them had done damage to property he would be strongly inclined to send the miscreants to Dorchester or to the Boys' Industrial Home.

As to the boys charged with shouting and acting disorderly in Dorchester street, Policeman Gibbs said that they had been in the habit of congregating in that street from different parts of the surrounding neighborhood, playing "peggy" tossing coppers, shouting and in other ways making a disturbance. Different residents had complained of it. On last Sunday they had been particularly noisy.

George Fleming, of the Phoenix foundry, gave evidence that they had been greatly troubled with boys doing damage to their windows and other parts of their property. He did not identify any of the lads in court, who were between fourteen and sixteen years of age, as having done so but he thought that the many windows which had been broken in the foundry had been smashed by boys. Damage amounting to more than \$25 had been done.

The three truants admitted the offence. They had been attending Winter street school, and had made very poor time since the opening of the present term. One, a lad of fourteen years, had missed thirty days, and said he did not want to go back to the school because the principal had beaten him so severely when he had a sorely injured hand.

HOW IS THIS FOR HEALTH RECORD?

In Seven Deaths of Fifteen This Week Deaths Were of Persons From 66 to 80 Years Old

St. John's claims as a healthy city receive strong support from the Board of Health figures for the last week. During this period there were only fifteen deaths; three of these were due to senility at the ages of seventy-eight, seventy-nine and eighty years; four others were at which death occurred were sixty-six, sixty-seven, seventy-two and seventy-five years. Of the others one death occurred at the age of twenty-six years, but this was due to accident, and another died at forty-seven years. All other deaths reported were of infants.

These figures seem to prove that if a person born in St. John survives the first year in which the death rate is the highest everywhere irrespective of climate or other conditions, the chances of living for the full limit of three score years and ten or even more are excellent. When a city is so healthy that old age becomes one of the chief causes of death there is little more that can be said in its favor in that regard.

The fifteen burial permits issued by the board during the week were because of death as follows—Senility, three; infant, two; cancer, trauma, asthma, diphtheria, malnutrition, hemorrhage, arterio-sclerosis, bronchitis, broncho-pneumonia, and acute nephritis, one each.

APPRECIATES LOCAL MEN'S WORK FOR GOOD ROADS

Letter From Premier to Percy W. Thomson About Roadway and Westfield Highway Work

At the meeting of the board of trade this week, the report of the traffic committee submitted by Percy W. Thomson, said:— "The bureau co-operated with the good roads interests and secured from Hon. Messrs. Fleming and Morrissey a grant of \$1,000 for two of the main highways in the vicinity of the city and inspected such work from time to time every week during its progress, besides arranging for the major part of the contract."

Mr. Thomson has just received from Premier Fleming, in connection with this matter the following letter:— Woodstock, N. B., Nov. 7, 1913. Percy W. Thomson Esq., St. John, N. B.

Dear Sir: I am in receipt of statement signed by yourself and others in regard to the amount of money expended on Robesay and Westfield roads under the direction of the Automobile Association during the past summer.

I want to bear a little word of testimony of my appreciation of the public-spiritedness of the men who contributed the \$1,420 and of those who gave care and oversight to the expenditure of that amount as well as the \$1,000 contributed by the government. It is the kind of co-operation, mutual assistance, that is always sure to bring results.

Yours sincerely, J. K. FLEMING.

"TO SAVE THE HIDE OF ST. JOHN'S REPRESENTATIVE"

Halifax Paper's Comment on Mr. Hazen and the Royal Line Steamships

(Halifax Echo) The officials of the Canadian Northern chose Halifax as the winter terminus for their boats, upon the basis of merit alone. If they are required to abandon Halifax they will do so merely because Mr. Hasen succeeds in forcing them to do so.

Now the people of Halifax have nothing especially against Mr. Hasen, but no good reason exists why the business of the port should be interfered with, simply to save the hide of St. John's representative in the cabinet. It is manifest from the articles recently appearing in the St. John Standard that Mr. Hasen is working tooth and nail to have the Royal boats give Halifax the go-by, in order that he may supply the citizens of St. John with a soap, to compensate them for the loss of the Empresses.

There is little need for argument. The course of our own business men is clear. They should call upon Mr. Borden, the representative of Halifax in the cabinet, to see to it that the interests of this city are upheld.

MORE GENERALS FOR CANADA

Important Changes in Divisional Staff Foreshadowed—Retirement of General Cotton

Montreal, Nov. 8.—Important changes in the divisional staffs of the dominion are likely to be made in the near future, according to an Ottawa rumor. The alterations will include the gazing of all divisional commanders as generals, and the abolition of the office of either assistant adjutant general, or the combined office of deputy assistant adjutant and quartermaster-general. There are at present about five generals on the staff of the Canadian militia, and it is said to be part of the plans of the department to increase this number considerably.

Apart from the comparatively few generals at present in office, it is felt that the divisional commanders should have this rank as they have in England, thus giving them more power. In addition to this, the retirement of General Cotton, inspector-general of the dominion, is rumored and may take place next year.
