Beautiful Weather Favors the Opening Day-A Well-Arranged Programme of Attractions.

(From Monday's Daily.)

Again Victoria celebrates her annual oliday: and in a manner and spirit peculiarly her own. The hostess of thousands of pleasure-seeking guests, she

is not only appropriately garbed, but zealously patriotic and sincerely conscious of the significance and importance of the occasion she seeks to commemorate by the festivities which have now commenced. Were there no Victoria Day celebration the year would seem to lack something; something that has become a part of the city's very existence, which when the time arrives insensibly attracts the attention of other places and people. who have come to expect, and rightly so, a gala event of exceptional magni-

This accounts for the presence here of thousands of visitors from the Mainland and the Sound, all on pleasure bent. True the carnival, which opened to-day has been diligently advertised in all direc tions, but even were this not the fact, Victoria would be invaded in considerable force, so tenacious a hold has her celebration taken on custom. All things considered, perhaps the pre-eminent feature of the opening was the glorious weather, which warmed the hearts of citizens and visitors alike and particularly of those in whose hands lies the immediate responsibility for the success of the celebration. "Made to order" was the laconic eulogium of a matter-of-fact individual, and this precisely summed up the situation. The Danish scientific expedition Greenland, under the leadership of Erickon, has arrived at the Danish colony of West Greenland, after much hardship and suffering. The expedition reports that it found the whaling ship Gjea, Capt. Ammundzen's with North Pole expedition on board, at Dalrymple Rock. All the members of the expeditions are well.

According to the Church Economist, the church members in the United States number 29.000,000, or 36 per cent, of the entire since 1800.
