Chatham, Mass, Dec 10—A hydrographic survey shows that the wreck of the sch Royal Arch, off Chatham, was caused by her striking bottom instead of a sunken wreck, as was at first supposed. There is less than fifteen feet of water under her at low tide, and the shoal exetnds northeasterly, with apparently less water over it. From the wreck Chatham light (south tower) bears north 1/2 west, distance about five miles.

Further surveys will give the exact location of this new and dangerous shoal, which lies on the west side of the northern entrance to the slue of Pollock Rip.

The wreck of the Royal Arch lies just awash, masts gone, and is a dangerous obstruction. NOTICE TO MARINER Notice is given that the easterly edge of the red sector of Execution Rocks light, W end of Long Island Sound was corrected December 8, 1894, to bear NE¼N, and guide clear of the S end of Hart Island. Bearing clear of the S end of Hart Island. Bearing is magnetic.

Philadelphia, Dec 14—Notice is given by the Lighthouse Board that the gas lighted buoy marking the Bibow of the Ledge, Delaware Bay, has been temporarily removed for refilling, and a first class iron ice buoy substituted for it. The gas lighted buoy will be replaced as soon as possible.

Bad State of Affairs in Connection with the Commercial Bank.

Directors Owe the Institution a Large Amount of Money.

The Very Awkward Position of Hon. James Pill, One of the Directors,

St. John's, Nfld., Dec. 17.-A heated meeting of the shareholders of the Commercial Bank of Newfoundland today resulted in some startling dis-

closures. Four firms, members of which are directors of the bank, owe the institution as follows: Goodfellow & Co., by Hutchings, \$120,000; and Duder. \$600,000. Goodridge and Jobs claim to be able to realize fully the amount of their liabilities. Duder is a hopeless bankrupt.

The sums owed by these concerns are three times the amount of the bank's capital stock, but if the assets are successfully realized upon, the indebtedness of the bank will be so decreased as to perhaps admit of the payment of a reasonable dividend.

Mr. Goodfellow, chairman of the board of directors, stated that several of the overdrafts have not been authorized by them. No satisfactory report of the bank's condition was resented.

Copies of the last annual report dated July 16, were laid on the table. The manager explained that there had not been time to prepare a new report. The old statement reveals a condition of affairs nearly similar to the present condition.

The statement in which there is any material change was that in regard to the specie, which decreased from \$138,-000 in July to \$23,000 when the bank suspended. A portion of this shortage occurred through Hon. James Pitt, one of the directors, loaning the bank £10,000, which he had invested in England, to facilitate the bank's London business by enabling it to place the same to its credit in London, Mr. Pitts being paid in gold there. The negotiations occurred in August, but Mr. Pitts only drew the money from the bank within the past fortnight. It transpired also in the discussion that oonds and debentures to the amount of \$341,000, which were regarded as the pest assets of the bank, were pledged to a London bank four years ago as security for overdrafts.

OTTAWA NEWS.

Ottawa, Dec. 11.—The department of trade and commerce is adopting a practice which is likely to be of great benefit to the business men of the country. Hereafter the quarterly reports of the operations of the department, together with information relative to new tariffs, tariff changes and general commercial information will be published. The first one was issued today.

The analysis of the industrial census of 1891 is being made by George Johnson, dominion statistican. The report when completed will show how unfounded is the complaint that the industrial development of the decade was magnified by the inclusion of civil industries in the category of in-

dustrial establishments. A small sized local sensation has been caused by the announcement of the contemplated resignation of Robillard as one of the members for this city in the house of commons. Mr. Robillard assigns as a reason for his move that Ottawa does not get its fair share of patronage. Members of parliament outside of Ottawa think, however, that the capital gets more than its share.

FREDERICTON.

Fredericton, Dec. 17.-Letters of administration of the estate of the late Bridget Scully have been granted by the York county probate court to her husband, Wm. H. Scully. The estate is entered at \$5,000 real and \$7,000 personal property.
