NOTICE TO MARINERS. Tompkinsville, N Y, Aug 12—The Lighthouse Board gives notice that a spar buoy, painted with red and black horizontal stripes was placed on the 12th inst to mark the painted with red and black horizontal stripes was placed on the 12th inst to mark the wreck of the canal boat Baker, sunk in New York upper bay, about 250 yards from the Battery. The wreck les in 3½ fathoms of mean low water, with 9 feet over it, and the buoy is on the northeast side of and close to the wreck. The magnetic bearings are: Governor's Island post lights, S by W½ W; Statue of Liberty, W S W; north point of Eliz Island, W ½ N.

A lantern showing a red light, suspended from her foregaff, was placed on the 12th inst to mark the wreck of the steamer Lizzie Henderson, sunk in seven fathoms at mean low water, directly off and about 300 feet from Pier 1, Hudson R.ver, New York. The wreck has two masts standing and heads N E.

Boston, Aug 13.—The repairs on lightship No. 54 having been completed, she has been replaced on her station, six miles east by south of Boston Light, and lightship No. 39 has been withdrawn.

New York, Aug 15.—The lighthouse board gives notice that the sunken wreck of the barge Andrew Jackson, in Gedney's Channel, has been removed, but the buoy that marked the wreck will remain, on account of the finding of a shoal which probably resulted from the wreck, ESE of the Red buoy and quite close to it. There is but five fathoms water on the shoal at high water.

CABLED FROM LONDON.

The Grand Trunk Half-Yearly Traffic Statement.

London, Aug. 17 -The friends of the Gran' Trunk railway do not share the pessimistic talk which the half yearly raffic statement has produced. The Westminster Gazette on Saturday afternoon added its voice to the News and the Financial Times in declaring the outlock poor. It says the deficiency for 1896 will exceed £100,000, and this makes a total deficiency for three years of £400,000. It predicts, seeing the position of affairs in the United States, that the company will soon be unable to provide for debenture intrest, and lenders will then cease pro-

viding money. On behalf of the Grand Trunk it is noted its position is slowly improving. and the deficiency of the combined system on meeting the fixed charges for the past half year was £88,000, being £13,000 better than the first half of 1895. The danger of a renewed rate war is regarded as a bad feature.

DUFFERIN'S SUCCESSOR.

London, Aug. 17 .- It is officially announced that the Right Hon. Sir John Monsen, British ambassador at Vi-enna, has been appointed British am-bassador at Paris, in succession to the Marquis of Dufferin, whose term

ONTARIO AND QUEBEC.

The High Commissioner's Warning to Canadian Inventors.

The Royal Berkshire May be Represented at the D. R. A. Matches.

Civil Service Clerks Disappointed-Shipping Flour to Australia.

Ottawa, Aug. 17.-The high commissioner has called the attention of the government to the complaints which have reached England from Canada respecting an organization called the International Patentees Agency, which has been advertising extensively in Canada to procure patents in Europe for Canadian inventors on payment in advance of certain sums of money. The association had its headquarters in Victoria Chambers, Chancery lane, and from information obtained in Scotland Yard it appears to be a first class swindle. The agency consists of one man, who previous to turning his attention to Canada operated successfully in the United States until the government of that country took the matter up and caused a warning to be published for the benefit of American inventors. Sir Donald Smith advises that a similar warning be conveyed to Canadians who may be interested in patents.

Col. Bacon, secretary of the D. R. A. has received an application from the adjutant of the First Royal Berkshire regiment, stationed at Halifax, for copies of the annual programme of the D. R. A. It is hoped here that a detachment of the Royal Berkshires will take part in the coming matches at

Rideau range. Mr. Edgar, the prospective speaker of the house of commons, has gone carefully into the matter of the sessional employes of the house. The sessional clerks, twenty-five in number, will be retained, they being considered as permarent employes. Of the forty-five messengers, etc., twenty

will be laid off. Saturday was civil service pay day, and to the great disappointment of the clerks the monthly cheques were not forthcoming. The warrant for his excellency's signature was duly sent to Carcapedia, but two reports are in circulation, one that Lord Aberbeen refused to sign it, the other that the despatch missed him on the way down.

The Ottawa corporation will present Hon. Mr. Laurier with a civic address of welcome.

The cabinet sat for three hours this afternoon and nearly completed the preparation of the estimates for preentation to parliament.

Montreal, Aug. 17.—The Lake of the Woods Milling (to. are shipping 1,000 tons of wheat and 5,000 barrels of flour to Sydney, Australia, the flour going by way of Hong Kong, as the direct line had all the space spoken for up te October.

THE CANADIAN WEST.

NEILL.—In this city, on August 15th, Bessie
A., eldest daughter of the late John and
Winnipeg, Aug. 17.—A prominent today that when the Manitoba and Northwest wheat crop was harvested it would produce a big surprise. He said there had been deliberate misrepresentation as to the crop presects of this country, and he believed there would be close on to twenty million bushels of first-class wheat for

export. Senator Perley, who passed through the city yesterday on the way to Ot-tawa, speaks enthusiastically of the crops in the Northwest. The wheat is maturing well and will be of the best quality. The senator has 160 acres of wheat on his farm at Wolseley and he expects the crop will yield an average of 25 hushels per acre of No. 1 extra hard, and this is only a fair sample of

the crops generally in that district.

The first sample of new wheat received at the grain exchange came in this morning and is an excellen sample, which should certainly grade No. hard and be of very good weight. Joseph Henry, a farm hand at Rapid City, was found this morning with a bullet hole in his forehead. Another farm hand, with whom he had

a quarrel, is suspected, but not arrested. Two or three years ago Henry was tried for killing an Indian, but acquitted, and some think the Indians in revenge shot him.

A despatch from Regina today says: 'A well authenticated rumor reached Regina today that a mutity or something very like it, had broken out among the mounted police at Prince Albert. The unpopularity of a certain

officer is said to have caused the trouble." On Saturday morning A. W. Gilling ham's saw mill at the North Forks of the Oldman's river, 40 miles from Me-Leod, was the scene of a fatal accident. The boiler exploded, killing three men named Smith, May and Edsall, and injuring another. The mill

was completely wrecked. Morley Ogilvie, who has spent the summer with his father surveying in the Yukon district, left for Montreal today to complete his course at Mc-Gill. It took Mr. Ogilvie just a month to reach Winnipeg from the Yukon. He took one of the United States mail steamers from the far north and the first port reached was San Francisco, from which point he came to Winnipeg by rail.

GAIL HAMILTON DEAD.

Hamilton, Mass., Aug. 17.—Miss Abigail Dodge (Gail Hamilton), the famous authoress, died tonight at her beautiful home from the effects of a paralytic stroke. Miss Dodge was stricken at breakfast yesterday morning, and immediately became unconscious. Medical aid was at once summoned and Miss Dodge removed to her bed, but while every possible means were adopted to restore her, she never regained consciousness.
