AUGUSTA, Me., Feb. 21. A bill was introduced in the legislature yesterday to authorize the Seaboard and Moosehead railroads to extend their lines to connect with the Canadian Pacific railroad. The road runs across the northern part of the state, but has no seaport in Maine.

### WILL TALK HARBOR MATTERS TOMORROW

Hon. Mr. Emmerson to Meet Citizens at Ten O'clock

More Delegates Back From Upper Canada

—All Well Pleased—Dredging Will be Rushed.

Ald. Pickett and Richard O'Brien returned home this morning from Montreal. Ald. Bowman will probably be home tomorrow and Ald. Lantalam on Saturday. Mayor Sears came down on the Atlantic Express also today, but went through to Fredericton to attend the forestry convention. He will probably be home tomorrow morning, arriving with Hon. H. R. Emmerson.

The minister of railways this morning telegraphed to Mayor Sears and President McRobbie here, saying that he would meet a joint gathering of the council and board of trade tomorrow morning at ten o'clock. A meeting has already been called at the board of trade rooms for that hour and the returning delegates hope that all citizens who are interested in the matter will be present.

It is understood that the minister of railways will address the meeting for about fifteen minutes, and that general discussion will be invited as to the best way of forwarding the advancement of the port and for the formulation of a scheme which can be placed before parliament at the next session.

The question of leasing the city's dredges to the government for cleaning up the I. O. R. pier, if necessary, was discussed, but the matter was dropped as it was found that she could not be put in commission for weeks. However, if dredging has to be done, as stated in another part of the paper, the Beaver, after the arrival of her spuds, will probably be put to work for a few days. One of the members of the delegation said this morning that there need be no fear that the berth will be ready for the turbines when they come.

### CONSTABLE REPRIMANDED FOR HIS LOOSE METHODS

Lady Had an Unnecessary Walk From Blue Rock—Many Civic Court Cases.

There was quite a large docket in the court this morning. A lady from Blue Rock had a long walk over the dangerous pavements. She was the defendant in a suit for money loaned. Questions had to be asked on a note. Constable Heffer served the summons on her last Tuesday, but failed to tell her that she should not go to court until next Thursday, so the lady had her walk for nothing. Constable Heffer was called before the court and reprimanded for the manner in which he performed his work, and the magistrate said he thought the Common Council would have to be spoken to regarding some of the appointments. The lady in question informed the court that her husband was dead and her name was with his on the note. It was very annoying to her to have Constable Heffer dogging her about the streets whenever he saw her. She was told that she would have to settle the matter and save herself another visit to the court next Thursday.

### KINGSTON BANK CLERKS GENEROUSLY REWARDED

Receive Gifts of Money in Recognition of Their Work During the Earthquake

It has been reported for some days that the management of the Bank of Nova Scotia, in recognition of the efforts put forth by the members of the Kingston staff during the earthquake, presented each member with a check of \$1,000. Manager Eason, of the local branch, when asked by the Star today concerning this, said that he had heard the rumor merely as street talk and could not state whether or not it was correct. Upon inquiring at Toronto, the Star learned that General Manager McLeod, who has recently returned from Jamaica, confirms the statement. Mr. McLeod said to the Star's correspondent that: "In recognition of the bravery of the bank's servants during the earthquake horror who from the manager downwards, stuck to their posts and put away all the books and cash, the bank has presented to the members checks ranging from \$100 to \$1,000."

"As a result of the magnificent work done by these employees, the loss to the bank was quite insignificant, although the building in which business was carried on was totally wrecked. There were some few papers which the staff were unable to put away as it was feared that the building might fall at any moment, and accordingly, after seeing the books and cash safely placed in the vaults, they went to the street. The wisdom of their action was shown when, a minute or two later, the walls of the building collapsed."

There are a number of provincialists among the members of the bank staff, including Manager Rowley, formerly of Fredericton.
