AMERICAN LEGISLATION.

The Philippine Tariff Bill Passed At Last.

Congress Has Begun Its Discussion on Railroad Rates—State Legislatures.

WASHINGTON, Jan. 16.—The Philippine tariff bill was passed by the house today substantially as it came from the ways and means committee. The vote was 238 to 71. Rice was made subject to the same tariff as sugar and tobacco, 25 per cent. of the Dingley rate, and one or two changes were made in the house record.

This result was attained after decidedly the most strenuous day of the present congress.

The many amendments which were launched were wanted to piece in the storm of debate and against the rock which the house committee on rules constituted, left much legislative wreckage, and many records only useful for future political purposes.

The strongest plea for "insurgent support" was made in behalf of Champ Clark's amendment reducing the differential on refined sugar. The minority sought to eliminate the house record made on the Cuban reciprocity act, but they reckoned without their host today, as no republican opponent to this measure stood with them to over-rule the decision of the chair.

The committee substitute met with only the support of the minority and went down under a vote of 231 to 106. The final passage of the bill to "insurgents" was secured by a roll call, their record might be preserved.

An effort which was sustained by the democrats, but opposed by all but three republicans, was initiated by Mr. McCall of Massachusetts, to commit the United States to the policy of granting independence to the Philippine islands as soon as their inhabitants can be prepared for self-government.

The bill admits goods, which were brought to the surface in the final trip. Shallock recovered consciousness at the top of the shaft. He was later put under arrest by the coroner but was paroled in the custody of the superintendent of the work and remained at Reef.

It provides that after April 11, 1906, there shall be absolute free trade each way between the United States and the Philippines. It also exempts Philippine goods coming to the United States from the export duty of those countries.

Merchandise from either country shall be subject to the internal revenue tax of the country in which such merchandise is withdrawn for consumption.

The house adjourned at 6:30 o'clock. WASHINGTON, Jan. 16.—Unexpectedly by the senate today found itself divided on the tariff question, which was precipitated by Mr. Fulton's taking the floor to make a general speech in explanation of an amendment offered by him to the Dingley bill.

CONFESSES TO MAINE MURDER ON DEATH BED. AUGUSTA, Me., Jan. 15.—The Kennebec county authorities received news today that Lewis Lane, who recently died in California, made a death-bed confession of the murder of Augustus Sawyer, a wealthy farmer of Newmouth, who was found clubbed to death in the summer of 1893. The news first came here in a letter from Lane's wife to A. A. Sawyer of Monmouth, nephew of the murdered man. No details were given, but the confession was that, before Lane expired from consumption, he acknowledged being guilty of the crime, which had been a two-year mystery to the county authorities.

Two years after the murder, Edgar and William Thompson of Monmouth, relatives of the murdered man, were arrested for the crime, but were discharged by the lower court.

THE warden brought the attention of the council to the case of the King v. Preston. The expense involved, \$112 has been paid by the city, and he thought if the parish provided \$15,000 the act might be so changed as to allow the work to be proceeded with this year. He moved that the act be referred to the committee for such purposes.

THE motion was carried, and James Bourke, of St. Martin's, complained that the municipality of St. Martin's owed him about \$67, and he would not pay it until his bills were paid. The matter was referred to the finance committee.
