

BIG REVENUE FOR PROVINCE IS ESTIMATED

Best Fiscal Year in History
of Province Predicted by
Premier Flemming-Gov-
ernment Meeting.

Fredericton, N. B., Oct. 9.—The greatest revenue in the history of the province was predicted for the fiscal year ending 31st October, 1913, by Premier Flemming this morning. "It looks to me as though we would have the greatest revenue in history and that is exclusive of bonuses on crown timber sales," declared the Premier at his office at noon. Besides being Minister of Lands and Mines, Hon. Mr. Flemming is also acting Provincial Secretary-Treasurer, and therefore had a most intimate knowledge of the province's financial affairs.

"The territorial revenues are about the same as for the past two years," continued the Premier, "although the lumber cut was smaller this year and stumpage collections therefore considerably less, the revenue from other sources is increasing. Fees in the Provincial Secretary's office, taxes from incorporated companies, King's Printer's office and other items are in excess of previous years. The estimate for succession duties was \$50,000, but through one or two large estates paying their tax this year the amount probably be well up to double our estimate, one estate alone paying upwards of \$34,000."

Premier Flemming is here to attend a meeting of the Provincial Government, Hon. James A. Murray and Hon. Dr. Landry also here for the same purpose. Hon. John Morrissey turned from his inspection tour along the route of the St. John Valley Railway this afternoon, and Hon. W. C. H. Grimmer, who arrived here last evening from St. Stephen, went to Gagetown this morning to appear in his capacity as Attorney General and returned this afternoon. Hon. John E. Wilson is in Ottawa with the St. John delegation and will be here tomorrow.

The Premier has been busily engaged in departmental work this morning, his callers including W. C. Milner, of Halifax, who is Dominion Architect for the Maritime Provinces; A. R. Gould, President of the St. John & Quebec Railway Company, who is here to appear before the Government on St. John Valley Railway matters; and others who are here to meet the Government. W. F. C. Parsons, of Drummond Iron Mines Company at Bathurst; H. W. Wood, M. L. A. for Queens; W. B. Dickson, M. L. A. for Albert; James K. Pinder, M. L. A. for York; Arthur Culligan, M. L. A. for Restigouche. The Provincial Government's session opened this evening and will continue tomorrow.

It is said to be unlikely that the new Indemnity Act will be proclaimed at this meeting of the Government.

MOHAMMEDAN PILGRIMAGE TO MECCA SHRINE

One Hundred and Ninety-
eight Vessels Engaged in
Carrying them to Arabia
—Interesting Statistics.

Constantinople, Oct. 8.—A statistical statement was recently issued of the number of Mohammedan pilgrims who traveled to Mecca via ports on the Red Sea during the Mohammedan year 1350, which corresponds almost exactly to the calendar year 1913. These pilgrims do not include the many thousands who travel to Medina and Mecca via the Hedjaz Railway and other overland routes, but they will serve to show the magnitude of the annual pilgrimage to the Mohammedan shrines in Arabia. The number of pilgrims arriving by sea was 83,995, of which 83,295 came to Jeddah, 688 to Yambu and 12 to Elwardi. One hundred and ninety-eight vessels were engaged in carrying the pilgrims and, of these, 144 were under the British flag, 22 Russian, 13 Dutch and 29 Turkish. The origin of these pilgrims is interesting. The largest number came from the Far East, which includes India, the Malays, Sumatra, Java and Japan, the total being 39,850. The Indian Ocean, Gulf of Oman and the Persian Gulf regions contributed 4523. From the Arabian and African coasts of the Red Sea there were 22,108. From isles or ports on the Mediterranean were 6,199; Constantinople, 2,299; Smyrna, 1,615; Beirut, 1,165; and Tangier, 740. Finally, the three Russian ports of Sebastopol, 7,892; Odessa, 2,761; and Novorossick, 20, made up a total of 10,473. From Morocco.

The wide extent of the Mohammedan religion is clearly shown by the 27 pilgrims who came from Japan and the 740 who sailed on their pilgrimage from Tangier, in Morocco. The fact that 44,671 had to be subjected to quarantine and other sanitary measures clearly indicates the importance of this travel to many parts of the world from the point of view of general health. Only by strict enforcement of quarantine can these pilgrims be prevented from carrying back the seeds of cholera, plague, etc., to their native countries, and, unfortunately, the annual pilgrimage only too often serves to spread these epidemics.

CARMEN MUSIC DONE OF KIDNESS TREATS

Special Music will add to
Success of Big Event —
Full Rehearsal Being for
Tonight.

Two scenes from the opera of Carmen will be the special musical treat of the coming Kinness that will be presented at the York Theatre next Thursday, Friday and Saturday nights, for the benefit of the Children's Play Ground Association. There will be over seventy voices on the stage at the time, and in singing the famous Ave Maria and the inspiring Toccata, the society boys and girls and the singers are at their best, and as the principals were picked out for their acting and singing ability, it is expected that many agreeable surprises are in store for the music lovers of St. John.

Full Rehearsal Tonight. A full rehearsal will be held tonight at the York Theatre of several of the grown people's groups, and it will be the last public rehearsal as the directors insist on everything being rehearsed privately from Friday night on, and as every one is working very hard a smooth like professional production is expected. Although the full dress rehearsals will be held with the special orchestra, scenery, costumes and electrical effects, and by the opening every little detail will have been mastered.

The names of the ladies and gentlemen participating in the Carmen scene are as follows, with a synopsis of the scene:

LA CARMENCITA.
From the Opera Carmen, Chaperoned
by Mrs. Dr. Crockett.

LaCarmencita, a cigarette girl Miss Dorothy Creighton
Michela Miss Ermine Climo
Don Jose Barton Wetmore
Toreador P. L. Lynwood

Synopsis.

At the noon hour in Seville a party of young men await the coming of the young girls who are employed at a cigarette factory. They are singing the Middy Bell. Soon the young girls appear singing the cigarette choruses led by Michela. Don Jose, a brigadier, is desperately in love with the Senorita Carmen, but has had a recent quarrel, and decides to show indifference to the overtures towards a reconciliation. He joins the singers and dancers who tease him concerning his quarrel with Carmen. This only serves to increase his anger. Carmen appears and tries to win back the love of the soldier which she fears she has trifled with too much. Furious at his repulse, she casts a flower in his face to show that she, forever casts from her heart the memory of their love. The hero of the hour, a victorious toreador, is heard approaching in the distance. He is welcomed and lionized by the populace. Carmen lays her net and while he sings "Here's to You," she follows him around the stage desperately making love and bringing to her assistance all the charms and wiles with which a Spanish woman loves. In triumph, the toreador offers his arm to Carmen, she accepts and has made one more conquest and daunts in the face of Don Jose her victory.

Cigarette Girls—Mrs. Dudley Robb, Miss Christine Crawford, Miss Eulalia Dykeman, Miss Annie Baisley, Miss Jane Creighton, Mrs. James W. Griffith, Miss Hazel Campbell.

Royal Serenaders—James W. Griffith, William Charlton, George Cochran, W. L. Creighton, Walter Pidgeon, F. G. Poole, A. E. Williamson, Albert Belding.

FIVE MINUTE CURE

IF STOMACH IS BAD

"Pape's Diaphepsin" is quickest, surest indigestion cure known.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diaphepsin is noted for its speed in giving relief; its harmlessness; its certain unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach troubles has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eruptions of acid and undigested food—remember, as soon as Pape's Diaphepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.

DIED.

BRUNDAGE—On October 9th inst., Eleanor Jane, widow of the late Thomas Brundage, in 88th year of her age.

Service at the late residence, 306 Princess street, 3 p. m., Sunday, October 12th.

While these statistics do not specify the number of pilgrims who came from the Philippines, there can be no doubt that the 1,000,000 Moros who are living there under American protection sent some of their number on the annual Hadj, or sacred pilgrimage.

DR. A. W. CHASE'S 25c CATARRH POWDER

is sent direct to the diseased parts by the Improved Blower. Heals the ulcer, clears the air passages, stops drops, cures Catarrh and Hay Fever, restores a lost power. Accept no substitutes. All dealers or send for a box to Dr. A. W. Chase, Ltd., Toronto.

HOW A FAKIR MADE MONEY FROM OCEAN

Gold in Salt Water in Bay
of Fundy Cost Public
Big Sum—A Lovely
Scheme.

For many years a paragraph has been floating around the world stating that sea water contains a definite proportion of gold. One metallurgist has taken the trouble to trace the statement of its source, with the result that the trail ran up a tree. No authoritative statement of the contents of gold "per ton of ocean" could be discovered. But it was enough to start the exploitation of the public by the Electrolytic Salt Company. Circulars were issued, stating, among other things, that sea water contained gold. The "inventor" stated the amount of gold to be one grain per ton of sea water. Possibly there is some infinitesimal trace of gold there. Certainly it is not that much—but the amount matters very little. Now a ton of material couldn't be handled for four cents—about the value of one grain of gold. But that difficulty could be overcome if we let nature handle the job for us. So in the Bay of Fundy, where tides run high, were placed tanks or reservoirs so that they would fill at high tide and empty at low tide. In the reservoir were "plates" for the deposition of the gold. In flows the water, down goes the gold. The only work is to scrape off the beautiful stuff deposited on the plates and there you are.

It was a lovely scheme. Subscriptions flowed in. Then came a real \$15,000 dividend, paid in hard cash. Now, indeed, money came in fast. There had been enough apparent appeal to scientific principles to satisfy those to whom electrolytic operations are a fact well known, but who have never bothered themselves as to details. Doubts were dispelled by the money. The stale old trick of a dividend paid from stock subscriptions had worked once more.

Then came the closing down of the mill, the flight of the promoter to a more congenial climate and other highly uninteresting details—Metallurgical and Chemical Engineering.

NEW YORK CRITICS ON "THE GAMBLERS"

Prominent Critics Unanimous in Opinion that
Stock Co's Next Bill,
Chas. Klein's Greatest.

It is often interesting to read articles written by intelligent, educated men, and those which The Standard quotes will be particularly interesting to the people of St. John, inasmuch as they pertain to "The Gamblers," Chas. Klein's greatest play, the second bill to be used by the Thompson-Woods Stock Company at the Opera House.

Louie Davies, of the New York World says: "Quick, sure success for 'The Gamblers.' Charles Klein's new Wall Street play is exceptionally fine from many points of view. Also admirably acted. Characters boldly and faithfully drawn."

Arthur Warren of the New York Tribune: "An electrifying success for playwright and players."

The New York Sun: "For dramatic strength 'The Gamblers' stands at the top of this season's new dramas."

New York Evening Globe: "Left one with the impression that here, at last, was a play."

Action Davies, New York Evening Sun: "A melodrama which has a real punch 'in it. The Gamblers' will prosper."

Adolph Klaubner, New York Times: "Mr. Klein has written a play which grips, which moves with little obviousness to an interesting conclusion, and which is tense and holding."

John Corbin, Saturday Evening Post: "The success of 'The Gamblers' is remarkable for many things, but for nothing more than for the evidence it gives of the debt that our native stage owes to Mr. Charles Klein. Every scene is sincere and convincing, and the interest mounts steadily, logically, until the final curtain."

The above are only a few of the many favorable articles which appeared and are still appearing every time this great, strong play is given, and Messrs. Thompson and Woods are sure that the people of St. John will heartily approve of this selection, as it will not only afford them an opportunity to witness a performance of great worth, but will afford the members of the company great opportunity to display their ability to satisfactorily give heavy, dramatic plays.

BANKERS NOW PLAN TO AID THE FARMERS

Will Take Intelligent and
Effective Stand on Ques-
tion of Agriculture —
Critique Currency Bill.

Boston, Oct. 9.—The American Bankers Association crossed its 39th annual convention here today. Further adverse criticism of the pending congressional plan of currency and banking reform developed when James J. Hill, of St. Paul, Minn., speaking as a friend of agricultural developments, termed the bill "too Socialist to suit most Americans," and predicted "disturbances, monetary crisis and business depression" from its enactment.

Before adjourning the convention settled a close contest for the honor of holding the next convention by deciding to go to Richmond, Va.

Arthur Reynolds, of Des Moines, first vice-president, was elevated to the presidency. W. A. Law, of Philadelphia, succeeded to the first vice-presidency without contest.

"The bankers gave over much of their time today to consideration of addresses dealing with the movement for closer relations between the financial interests of the country. It was under the head of 'agriculture in the United States that Mr. Hill spoke."

Joseph Chapman, of Minneapolis, chairman of the association's committee of social and agricultural development, prophesied a time when as a result of a decrease in the production of cattle porthouse steak would cost a dollar a pound and the price of meat would be prohibitive to the working man.

"What the bankers must do," he said, "is this—they must devote themselves to making the farmer a better credit risk."

"The bankers have taken a much more intelligent and effective stand on the question of agricultural development than they have on the currency question," Mr. Chapman declared.

"We have too many brokers, too many lawyers, yes, even too many bankers," said Dr. George E. Vincent, president of the University of Minnesota.

"And, gentlemen," he added, "we have too few farmers, too few dairymen. Everything in our education has tended to draw the country boy into the city. Do we want culture in Minnesota? Yes, but we don't want the kind of thing thought culture was, when I graduated from Yale University. We want that culture which makes for national efficiency, economic, moral and democratic."

The delegation of country bankers which is to go to Washington on Monday to present the resolutions opposing features of the Owen-Glass bill, adopted a few days ago, had a final meeting tonight. They are to be received by President Wilson Monday afternoon.

FREE OF PAIN IS THE WAY WE EXTRACT TEETH

by the famous Hale method, which is used exclusively at our offices. WE CHARGE ONLY A NOMINAL FEE—25 CENTS. We make the most beautiful artificial teeth in Canada. Crown and Bridge Work a Specialty.

THE WORLD'S SERIES GAMES.

The Standard has arranged for telegraphic service covering the world's series of baseball games, by innings. The results will be posted on the bulletin board in the window of The Standard office as they are received and this paper will be pleased to answer, to the best of its ability, all telephone enquiries on days on which games are played.

KILBANE WINS.

New York, Oct. 8.—Johnny Kilbane, of Cleveland, the featherweight champion, outought Kid Julian, of Syracuse, throughout their ten round bout tonight. In the sixth round Kilbane sent his man to the floor with a hard right to the jaw for the count of nine, and it was only by clinching and wrestling tactics that Julian managed to last until the final bell.

Everything in our education has tended to draw the country boy into the city. Do we want culture in Minnesota? Yes, but we don't want the kind of thing thought culture was, when I graduated from Yale University. We want that culture which makes for national efficiency, economic, moral and democratic."
