

"keep your trigger-finger fit"

Constable Karloff hasn't quite got the right idea—but at least he knows that good marksmanship is the result of practice. There's only one way to be a really good shot—*practice*, on the target range, out in the country, everywhere you get a chance. You'll soon find your trigger-finger getting more and more dependable. And when it comes to ammunition, you'll find none more dependable than DOMINION, made by C-I-L. There's a DOMINION cartridge for every type of gun.

"ALWAYS DEPENDABLE"
