Cause of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

WHY "COAL" DID NOT BURN

Amazing revelations are coming from the coal regions of Pennsylvania when, according to a newspaper report, the great coal companies that monopolized the anthracite of the nation during the bitter winter just passed shipped to market and made \$150,000,000 profits from the refuse—slate and slag and stone and dirt—of the great culm-banks that have been accumulating the waste matter of the mines for nearly a hundred years. With unbelievable avarice the coal barons are said to have shipped hundreds of thousands of tons of this waste incombustible material to market and sold it as coal, mulcting the public of millions of dollars for stuff that would not burn.
