DISTRICT AND GENERAL

The death took place at his home in Brooke of another of the old-timers in the person of James Bell, in his 88th year.

While harnessing one of his horses, John Simpson, of West Lorne, was kicked in the face, his jaw being broken in several places.

While in the woods on Thursday Ralph Randall, of Bothwell, was struck in the eye by a limb of a tree and the pupil knocked out.

A pair of beavers have dammed up the creek on the farm of J. McIntyre, near Bothwell, where they have apparently taken up their winter abode.

A large quantity of liquor, said to be worth \$700, was confiscated at the house of Joseph A. McManus, a resident of Watford, who was fined \$300 and costs for keeping liquor for sale.

A motion by the Provincial Government, calling on the Dominion Government to prohibit immigration of Asiatics into Canada, was adopted unanimously by the British Columbia Legislature.

"Ontario farmers have not lost their community spirit," says a report from Lambton, in noting a plowing bee in which nine teams were engaged on one farm whose owner had been ill for some time.

Rev. W. Stanley Owen, minister of the Presbyterian church in Wallace-town, has received from the congregation of Chalmers Presbyterian church, Toronto, a unanimous call to become their pastor.

A reduction in wages of \$6.12 a month for G.T.R. clerks and office employees has been announced by that company to take effect at the end of this month. Station agents and freight handlers may also be affected.

Dr. R. D. Dewar, of Melbourne, was elected president of the Middlesex Medical Association at a meeting on Wednesday in the Tecumseh House, London. Dr. W. H. Woods, of Mount Brydges, was elected secretary-treasurer.

The price of potatoes fell to 18c a bushel Thursday at producing centres throughout Northern Michigan, this being the lowest figure paid by buyers in years. The low price is due to over-production and inability to obtain freight cars to move the tubers to the larger consuming centres.

A collision in Windsor between a big limousine, driven by Charles Kovinsky, and a Ford, driven by William J. McArthur, formerly of Middlemiss, resulted in the instant death of Kovinsky, who was pinned beneath the wreckage. The Ford was thrown 35 feet and demolished and Mr. McArthur suffered slight cuts.

Colin McKeigan, of Strathroy, has arrived home from Scotland, where he went to purchase Clydesdale stallions. Mr. McKeigan was successful in buying six fine animals from Kilpatrick, Brown & Chapman, noted Clydesdale breeders. Mr. McKeigan has dealt in pure bred Clydesdales for the past 40 years, and during that time he has made 35 trips to Scotland for the purchase of animals.

Farmers living near the provincial highway between Thamesford and Crumlin have declared a 24-day order to protect their henhouses from the ravages of chicken thieves. Within the past month over half the farmers on the highway between Crumlin and Thamesford have been visited by thieves who in most cases have cleaned the roosts of every bird. Losses will run well into thousands of dollars, as many of the farmers own large flocks of turkeys.

With the construction period for this year now over, the provincial highway department at Toronto has made public a statistical abstract of its season's accomplishments. It revealed the construction of about 300 miles of highways, the accomplishment of much preliminary grading and other work and the expenditure of approximately \$10,000,000. Of this \$10,000,000 the Dominion pays a share and the municipalities benefiting pay 20 per cent. of the total.

The death occurred at the residence of her sister, Miss Louise Baker, West Lorne, Thursday afternoon, of Mrs. Martha Jackson, aged 73 years and 11 months. She was a resident of Wardsville for over 35 years, selling her home there several months ago, since when she has been making her home with her daughter at Ilderton, coming to West Lorne about two weeks ago to visit friends. She was a life-long member of the Methodist church. Mr. Jackson predeceased her about 18 years.

SMALL CARDS CAUSE DELAY

Post Office Warns Against Use of Undersized Greetings

Postmaster Currie has received instructions from Ottawa advising that citizens be urged to discontinue as far as possible the use of small cards and envelopes the coming Christmas season, the following objections being pointed out:

As a result of the small size of the cards or envelopes, the post office cancellation mark frequently falls on the address, partially obliterating it, with the possibility that the article may be misdelivered or at least delayed. It is also pointed out that there is difficulty in putting small cards or envelopes through the stamp cancellation machines at offices, and this also causes delay. The small size of the cards or envelopes makes them apt to fall out of bundles in which they are tied, and there is the possibility of loss, misdelivery or delay thus outlined, arising from the use of small cards or envelopes, rests entirely on the sender.

Postmaster Currie also advises citizens that money orders for payment abroad should be purchased as soon as possible, and at the latest within the next ten days. Unless the advices of these money orders reach the exchange offices in time for despatch by the Christmas mails, payment of the money orders will not be made before Christmas.

A WEEK OF WINTER

Winter weather has prevailed in Ontario a week or more, with heavy snowfalls in many sections. At London over a foot of snow is reported; at Glencoe there is barely enough to cover the ground. The temperature dropped into the teens on Monday night. A spell of milder weather is promised by the weather bureau for the next day or two, while on the other hand a pronounced cold wave is spreading over the West, where a few days ago mosquitoes and grasshoppers were making merry on the prairies.

Carman; president, Gordon Dickson; vice-president, W. D. Moss; secretary-treasurer, C. E. Davidson; chaplain, Rev. D. G. Paton; managing committee—James Poole, P. E. Lumley, G. W. Snelgrove, G. A. Parrott.

NEARLY SMOTHERED IN SAFE

At Parkhill, children playing hide and seek in a vacant building, formerly occupied by the Gazette, were almost the cause of a tragedy. There is a large safe in the building, and one boy squeezed himself into it and closed the door. The trouble began when he found that neither he nor any of the other boys could open the door to release him, the boy inside being in such a cramped position that he could not move. The boys called a passing clergyman, who also tried in vain to open the door. Finally help was sought at the Gazette, and members of the staff who knew the combination opened the safe. The lad inside was in an exhausted condition and was having difficulty in getting his breath. A few minutes more would probably have been fatal.

JACK MINER

The many who came out to hear this celebrated naturalist talk on birds and bird life Monday afternoon and evening in the Glencoe opera house had their best expectations more than realized. They were delighted beyond measure. Jack Miner is not an educated orator, as schools and colleges go, but in the sense that he has a knowledge of what he is talking about he has the majority of orators beaten to a frazzle.

Without the customary and oftentimes meaningless handing out of bouquets by way of introduction, Jack Miner plunges heart and soul into his subject and treats his hearers to a spontaneous outburst of homely oratory that has the force of sincerity backing it up. His lectures are a treat, indeed.

In the afternoon "Uncle Jack" spoke to the boys and girls of the high and public schools. And what boy or girl was not richly benefited by his heart-to-heart confidences, put in the vernacular of every-day life—telling of the haunts and habits of the feathered tribe—urging kindly but forcefully the protection of these of God's creatures.

In the evening the older people heard him gladly in a two-hour talk on geese and ducks and their migratory habits, showing on the screen, in the afternoon, both slide and, motion views of his bird haven at Kingsville, with thousands of geese and ducks on the ponds or arriving and leaving; views of his home and farm, with their beautiful rose gardens in full bloom and baseball field for the boys. This latter because "Uncle Jack" loves the boys even better than the birds. There is good in every boy, and he believes in putting his arms about them and encouraging the great possibilities that are lying dormant in their makeup.

To her husband and children are extended the heartfelt sympathy of the community in their sad bereavement. The funeral services were held at the family residence on Saturday, Nov. 25, conducted by Rev. N. Stevenson, of Appin. Interment was made in the Appin cemetery. The pallbearers were six nephews.

BARN FIRE IN METCALFE

Henry Klemm, of Metcalfe, had his barn and granary destroyed by fire on Sunday evening. The live stock in the barn were got out, but the rest of the contents of the barn and that of the granary were consumed. The fire was caused by a lantern upsetting and exploding while the evening chores were being done. There was an insurance on the buildings and contents.

Shoes and hosiery, underwear, clothing, hats and caps, rubbers and over-shoes, all bought direct from manufacturers and mills, enabling this store to give a better article at less price than often paid for inferior class of goods bought from jobbers or wholesalers. Mr. Currie believes in "true value" and "service" for continued success in trade building.

ANOTHER TAX ON MOTORISTS

Motorists will next year, according to reports, be subject to another tax when they take out their licenses for 1923. The new levies, however, are no to be heavy, and will for the coming year, it is believed, consist principally in charging all motorists the sum of \$1 for their license plates, in addition to the regular fees. It is also stated that an increase may come in the license fees demanded for the operation of heavy trucks.

The charge for license plates will provide a revenue of approximately \$250,000 to the department, a sum which will be sufficient to take care of administration expenses and to pay the manufacturing cost of the markers.

A trip that formerly took two hours can now be made in twenty minutes with a car. And you can spend the two hours looking for parking space.
