another day and got the money. About 2300
hrs. Dec 27th we started back from Florence
via Fiesole to the harbour area where ~~was~~ H.Q.
Squadron ^{ICAR} is situated. On the way back, outside
of Borgo we stopped and picked up Tm.

L'Honnault and the O.C. sigs batman, (his
nick name is Micky, I don't know his real
name) and drove them into camp ~~at~~ where
we parked the vehicle. As we were coming
through the gate we slowed down but did
not stop. We parked the vehicle in the
same area but not the same place. On Dec
26th in the morning I was in the tank park
and happened to be walking by the 15 cent
Dodge A mess truck and noticed that the
left front fender was dented, I did not think it
was while driving either to or from Florence.

Question - Did either you ~~or~~ the vehicle have any
authority in the way of a pass or
work chit to be out of the area?

Answer - No sir.

Question - Did you spend most of the
evening in Florence?

Answer - We spent it all sir.
