

LIST OF ILLUSTRATIONS

FIG.	PAGE
1. SESSILE AND PEDUNCULATED MYOMATA	2
2. MULBERRY-SHAPED AND SESSILE MYOMA	2
3. AN ORDINARY MYOMATOUS UTERUS ON SECTION	3
4. A GENERAL "MYOMATOUS TENDENCY"	4
5. INJECTION OF A MYOMATOUS UTERUS	6
6. TYPICAL MYOMATOUS TISSUE	7
7. THE LINE OF CLEAVAGE BETWEEN A MYOMA AND THE UTERINE MUSCLE	8
8. BLENDING OF A MYOMA WITH THE UTERINE MUSCLE	9
9. THE IRREGULAR EXTENSION OF A MYOMA INTO THE UTERINE MUSCLE	10
10. A TRANSVERSE SECTION THROUGH A MYOMATOUS UTERUS	11
11. THE MYOMATOUS UTERUS AS VIEWED ON TRANSVERSE SECTION THROUGH THE CERVIX ...	11
12. OMENTAL BLOOD-VESSELS THAT ARE KEEPING ALIVE THE OUTER LAYERS OF A MYOMA WHICH SHOWS ALMOST TOTAL HYALINE DEGENERATION	15
13. A PARTIALLY PARASITIC MYOMA RECEIVING MOST OF ITS BLOOD-SUPPLY FROM THE OMENTUM	17
14. A PARTIALLY PARASITIC MYOMA RECEIVING A LARGE BLOOD-SUPPLY FROM THE OMENTUM	17
15. A LARGE PEDUNCULATED MYOMA RECEIVING NEARLY ALL OF ITS BLOOD-SUPPLY FROM THE OMENTUM	18
16. A VERY LARGE SUBPERITONEAL AND PEDUNCULATED MYOMA, RECEIVING MOST OF ITS NOURISHMENT FROM THE OMENTUM	19
17. A VERY LARGE PEDUNCULATED AND PARTIALLY NECROTIC MYOMA RECEIVING A RICH BLOOD-SUPPLY FROM THE OMENTUM	20
18. A PARASITIC MYOMA RECEIVING A LARGE BLOOD-SUPPLY FROM THE OMENTUM. PARTIAL ATROPHY OF THE OMENTAL FAT	22
19. MARKED DISAPPEARANCE OF THE FAT IN AN ADHERENT OMENTUM	23
20. THE GRADUAL DISAPPEARANCE OF OMENTAL FAT WHEN THE OMENTUM SENDS MANY VESSELS TO A PARASITIC MYOMA	25
21. A LARGE PARASITIC MYOMA WITH HUGE VESSELS COMING FROM THE OMENTUM	26
22. LARGE CONGERIES OF OMENTAL VESSELS SUPPLYING NOURISHMENT TO A MYOMATOUS UTERUS; ALSO VESSELS PASSING UP FROM THE BLADDER TO THE TUMOR	28
23. A LARGE MYOMA ENTIRELY SEPARATED FROM THE UTERUS AND LYING FREE IN THE OMENTUM	29
24. OMENTAL VESSELS SUPPLYING A SUBPERITONEAL PEDUNCULATED MYOMA, AND ASSO- CIATED WITH 7000 C.C. OF ASCITIC FLUID	34
25. A PARTIALLY PARASITIC UTERINE MYOMA ASSOCIATED WITH 51 LITERS OF ASCITIC FLUID	36
26. A PARTIALLY PARASITIC MYOMA RECEIVING PART OF ITS NOURISHMENT FROM THE FALLOPIAN TUBES	37
27. A PARASITIC MYOMA IN NO WAY CONNECTED WITH THE UTERUS	39
28. MULTINODULAR MYOMATOUS UTERUS WITH A LEFT PUS-TUBE	40
29. A MYOMA RECEIVING MUCH OF ITS NOURISHMENT FROM THE RECTUM AND APPARENTLY FROM THE RIGHT OVARY AND TUBE	42
30. A LARGE SUBPERITONEAL PEDUNCULATED MYOMA, RECEIVING MUCH OF ITS NOURISH- MENT FROM THE INTESTINES	43
31. A SPLEEN-SHAPED MYOMA	45
32. A SUPPURATING SUBPERITONEAL MYOMA COMMUNICATING WITH THE LUMEN OF THE CECUM	46
