

Get Aboard the Buckeye and Ride It to Success

THE way has been paved for you. The demand for machine-cut ditches is larger than ever before. All you need to get on the inside of the contract ditching business is a

Buckeye Traction Ditcher

This machine will set you up in a business that will pay you from \$15 to \$18 a day, digging drainage ditches for the farmers in your neighborhood.

The Buckeye ranks with the threshing machine and tractor for good, all around efficiency. It is helping thousands of farmers to get a bigger and better crop production by teaching them the importance and necessity of well-tiled land.

It cuts from 100 to 150 rods of true, straight, perfectly-graded ditches a day. It does the work more than twice as fast as hand labor, and so much better that there's no comparison.

The Crown

This is a light-draft, heavy-service plow for use on those farms running to clay. Wheels have dust-proof roller bearings. Lever furrow straighteners are in easy reach. In this model, our idea was to give the maximum strength for difficult service, without designing an unmanageable or heavy plow. This strength is mostly attained by clever frame design in steel. See our Catalogue of the 'Crown' and other gang and sulky plows, —sent Free.

Cockshutt Gangs

The Maple Leaf

THIS Gang has an adjustable frame, and can handle loamy soil to 20 ins. wide by 8 ins. deep, or less. It meets the need of the man with 3 horses and a big farm to plow without help. The "Maple Leaf" handles a wide variation in soils, and may be fitted with a straightener, and gets plowing done in the quickest time your farm soils allow. The adjustable frame gives you full advantage of every favorable acre of loamy land—yet meets clay, hard-baked or sticky soil by a narrower furrow.
