

# RECOMMENDED BY THEIR QUALITY.....

Imperial Parowax, Imperial Ioco Liquid Gloss, Imperial Household Lubricant—just try these three excellent products in your own home, and you will ever after unhesitatingly recommend them to your customers.

Imperial Ioco Liquid Gloss for renewing the lustre on all finished surfaces—furniture, automobile and carriage bodies. Useful also in cleaning and polishing plate and cut glass.

Imperial Household Lubricant prevents rust and kills the squeaks. As its name indicates, it is just the thing for a phonograph, sewing-machine and typewriter, as well as for other household purposes.

Imperial Parowax seals out the air in preserving. A little Parowax makes the wash day lighter—brightens the clothes, and adds the laundry gloss in ironing, too.

A better value for customers and a more liberal margin for dealers in these than any similar products.
