

# Another Big Crop For the Empire and Her Allies

Is Assured only by Every Farmer making Ample Preparations for Rapid  
Work and Real Good Work when Spring Opens

## The Seed Drill

### And the Hired Man

There's no much difference in drills as there is in hired men. They all work, but some do it right, while others do it any way but right. The **G.G.G. Imperial Drill**, like the good hired man, does its work right. Only the best materials available are put into our **Shoe, Single Disc and Double Disc Drills**. Levers are handy for the operator and each drill is so equipped that even a somewhat incapable man can do better work than he would with an ordinary drill. And besides, actual tests have proven that the draft on **G.G.G. Imperial Drills** is lighter than the draft on drills of other make of the same size and seeding the same depth. This is an important factor at all times, but more so now since both horse power and hired men may be scarce this spring. Study the points about our drill before you buy, or place your order now for early delivery.

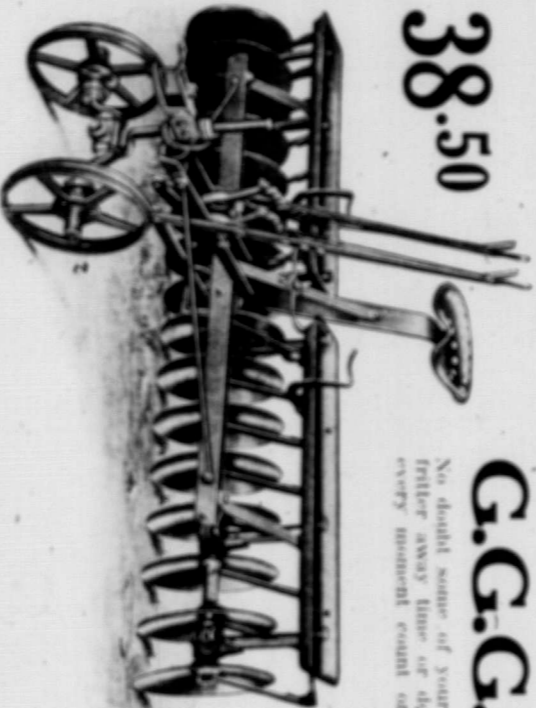

Following are our Prices F.O.B. Winnipeg:

No. 16.	Shoe Drill	\$ 86.70	Single Disc	\$ 92.10	Double Disc	\$ 99.55
No. 20.	Shoe Drill	104.65	Single Disc	111.50	Double Disc	120.75
No. 22.	Shoe Drill	112.10	Single Disc	119.55	Double Disc	129.85

Shoe Drills are equipped with Three- or Four-Horse Eyes; Disc Drills with Four-Horse Hitch. Two Poles and Drag Chains. Press Wheels are supplied at \$3.15 a pair. Seat and Attachments \$3.15 extra.

## G.G.G. Disc Harrows --

38.50

No doubt some of your land must be disc'd before you put in the seed. You can't afford to fritter away time or do a poor job with an old fashioned worn out disc. You want to make every inch of land count every hour count for the most in preparing a real good seed bed. Get one of our disc harrows.

Harrows are dirt proof and oil tight. Standards are set near the corners side and shaped to follow the turn of the disc, allowing most resistance and giving least chance to kink or break.

Prices F.O.B. Winnipeg

No. 33.	14x16	\$38.50	No. 34.	16x16	\$41.00

### Use the FANNING MILL

No matter how well your land is prepared and no matter what the seeding capability of your drill, you must sow good clean seed if you want the largest and best crop. The Fanning Mill has been used altogether too little in Western Canada. Get rid of the weed seeds and the weak grains before you sow.

The **G.G.G. Fanning Mill** is made specially for us in one of America's best fanning mill factories and has stood the test all over the North-west. It is built from the best materials, steel milled and bolted, and every part is carefully inspected by experts before it leaves the factory. Each mill is equipped with automatic lever feed, easily controlled by the operator, and our Barrow Attachment lets double delivery and direct drive make it run easy.

Prices F.O.B. Winnipeg, including gangs for Wheat, Oats, Barley and Flax

No. 10.	Sieves 24 lbs. wide.	\$23.00	with Harrow	\$ 32.00
